FALLING HAIR RESTORED
After I was taken ill my hair commenced to fall, and turned gray rapidly. I commenced to use CUTICURA. The scalp became healthier and more natural every day. Now I have a crop of fine brown hair all over my head about an inch and a half in length. My nurse is delighted because the new hairs are brown. I never had very luxuriant hair, even in my youth. It is as thick on my head to-day as it ever was, and CUTICURA did it.

FLEETS WILL UNITE.

Admiral Camara to Sail from Cadiz Tomorrow.

Will Reinforce Cervera's Squadron Off Cuba.

Rumors That the Fleet May Already Have Sailed.

Dispatches from Madrid Say Camara Has Been Fully Instructed and Returns to Cadiz—War News from Abroad.

LONDON, May 24.—A dispatch to the Evening News from Madrid, published this afternoon, says:

"No news is allowed of Cadiz, and although it is announced today that Admiral Camara starts hence tomorrow, to reinforce the fleet, it would not be surprising to learn that the squadron has already left and that the presence of Admiral Camara, as well as the official announcements anent the fleet soon sailing westward, have been a blind to cover its departure.

"There is some anxiety here as to whether Admiral Cervera's entire squadron has been able to re-unite in Cuban waters. If the ministers are aware of the precise whereabouts of Admiral Cervera, they are keeping it secret."

MADRID, May 24.—Noon.—According to published news here, Admiral Camara, the commander of the Cadiz squadron, has been fully instructed and returns to Cadiz tonight.

LONDON, May 24.—A special dispatch from Madrid today says: Evidently the program in regard to the Philippine islands has been changed. It is believed here that there will be no immediate engagement in Cuban waters, but Admiral Cervera will draw off the enemy while the Cadiz fleet relieves Havana.

SECRET ORDERS ARE GIVEN TO CERVERA.

MADRID, May 24.—Noon—A dispatch received from Havana says: "Secret orders have been given to Admiral Cervera as to what course to pursue in the event of the Americans attempting to cut communication between Cuba and Spain.

"Americans continue to occupy stations outside of Havana, Cienfuegos, Cardquas and Santiago de Cuba. There are now nineteen American warships before Havana."

It is reported that the Spanish government has purchased another vessel to be used as an armored cruiser.

As cabled to the Associated Press, from Bremen yesterday, the North German Lloyd steamer Havel has been sold to a firm at Hamburg and sailed yesterday, presumably for the Mediterrean. The purchasers it was added do not appear to be ship owners. A report was current last week that the Havel had been sold on account of the Spanish government. She is a steel vessel of 6,875 gross tons and has developed a speed of between eighteen and nineteen knots in passages between New York and Southampton. She was built in 1890 at Stetten.

SPAIN'S NEW MINISTER OF FOREIGN AFFAIRS.

MADRID, May 24.—Duke Almedovar de Rio has accepted the portfolio of minister of foreign affairs, offered to but declined by Senor Leon y Castillo, the Spanish ambassador at Paris. The duke informed the correspondent of the Associated Press that he does not desire the office, but accepts it on patriotic grounds.

The new minister added:

"Every Spaniard is bound to devote all his powers to the defense of the country."

It is believed Senor Gamazo, the present minister of public instruction and liberal leader, will replace Senor Puigcerver, now minister of finance, who has absolutely declined in the cortes to agree to an income tax and who is consequently expected to resign.

Senor Gamazo favors the proposed impost. It is said that the concentration of Spanish troops in the neighborhood of Gibraltar is due to an increase in the British military preparations.

The Liberal, Premier Sagasta's organ, says that the diverging interests of the powers preclude for the present any definite prompt diplomatic action giving Spain powerful European backing.

POWERS TO INTERVENE WHEN THE TIME COMES.

NEW YORK, May 24.—A dispatch to the World from London says:

A veteran diplomat, who represented a continental power at various capitals for many years, but is retired from active service now, though well informed on current international affairs said:

"I expect European interference in this war but not at the present stage because the continental powers can find no pretext for stepping in as long as Spain holds out gamely.

"I have reason for supposing that Austria is only waiting for an opportunity to do something for Spain. But the Austrian emperor feels that he cannot go against the interests of the triple alliance by playing too much into the hands of France or Russia or attempting to lead Italy and Germany to pick a quarrel with the United States.

"Then, again, the emperor of Austria knows that France and Russia have many interests themselves to make them hesitate about causing an open rupture with America or increasing the already visible tension of their relations consequent on too public a show of sympathy with Spain in the Russian and French press.

"The continental powers will interfere the instant events will give them an opportunity of appealing to the better, nobler feelings of the American people and president, asking them to show forbearance and generosity and not to insist upon making use of their superior power and resources to make 'Spain feel too heavily the consequences of her gallant struggle.'"

After a pause the diplomat added with great earnestness:

"Come, don't you think the recent speeches of Sagasta, Silvela and even that horrid republican, Salmeron, point the same direction as my inferences? Cannot you read through the lines that those who can see beyond the popular agitations—which were very natural at the outset—really feel in their heart of hearts that, Spain, like all disabled, sinking ships in a terrible storm, will have to save the noble craft by casting part of the cargo overboard after all?"

"Sir, Spain survived the loss of her American mainland possessions and will survive the loss of Cuba if she keeps the rest and averts revolution and civil warfare."

NORWEGIAN BARK TO BE SPANISH COLLIER.

LONDON, May 24.—The Daily Chronicle publishes the following with reserve:

A vessel flying the Norwegian flag and sailing with Norwegian papers has been fitted up in London as a coal hulk on an elaborate scale. She has been fitted from one end to the other with electric light and has been, in fact, altered from stem to stern to receive and discharge coal in large quantities.

Some days ago she was cleared by the Norwegian consul in London and proceeded to Cardiff, where she will take on 3,500 tons of coal. Then she will be cleared, our information goes, for a neutral port and will proceed in tow of a tug to Cape Verde to act as a receiving hulk, to which Spanish war vessels will go for coal.

She will lay up in a bay off the African mainland, where her presence will be unnoticed, and will be refilled from time to time by fast steamers coming from various continental ports.

SPAIN HAS SOLDIERS READY TO LEAVE CADIZ.

LONDON, May 24.—A Barcelona dispatch to the Chronicle, dated Sunday, reports:

"A steamer took 1,000 soldiers to Cadiz yesterday. There was no excitement.

"The troops are bound either for the Canaries and Ceuta or for the Philippines, though the sending of reinforcements to the Philippines probably has been postponed indefinitely.

"The obsolete ironclad Numancia has arrived here from Cadiz and is being fitted up as a guard ship.

"Two trans-Atlantic liners are in the port and the batteries along the coast are being repaired.

"The officials here boast that this city has been undisturbed throughout the trouble but great misery has resulted from the impost on raw materials and through the falling of the coinage. The workmen's committee sent a deputation to the local governor yesterday complaining bitterly. The press sympathizes with the workmen."

DEATHS AND FUNERALS.

George W. Keim, the six months-old child of Mrs. Florence Keim, died at the home of his mother, at No. 2 Thomas street, late last night, from exhaustion.

DAWSON.

Mrs. Helen Dawson, for thirty years a resident of Fort Wayne, died at the home of her son, at Indianapolis, yesterday. She was about seventy-five years of age, and well known among the older residents. She leaves three sons, Andrew J., the Pennsylvania conductor of this city; James, a police captain at St. Louis, and John, at Indianapolis, at whose home she died. The remains will be interred at Coldwater, Mich.

HANNA.

The time for holding the funeral of the late J. T. Hanna has been changed and it will be held tomorrow morning at 10 o'clock under the auspices of the Scottish Rite Masons, Rev. Dr. D. W. Moffat officiating.

THE PEOPLE STARVE

Situation in Manila Said to be Desperate.

Food Supplies Will be Exhausted in Two Weeks.

Insurgents in Control Outside of the City.

Arrival of the American Troops is Anxiously Awaited—Spanish Lost Heavily at Bombardment of Cavite.

WASHINGTON, May 24.—The navy department today received a cablegram from Admiral Dewey, as follows:

"Manila, May 20, via Hong Kong, May 24.—Secretary Navy, Washington:—Situation unchanged. Strict blockade continued. Great scarcity provisions in Manila. Foreign subjects fear an outbreak of the Spanish soldiers, and they will be transferred to Cavite by the foreign men of war in the harbor. Aguinaldo, the rebel commander-in-chief, who was brought here from Hong Kong, on the McCulloch, is organizing a force of native cavalry, and may render assistance that will be valuable. DEWEY."

NEW YORK, May 24.—A copyrighted dispatch to the World from Hong Kong, dated May 24, says:

The situation at Manila is desperate. Food is scarce and meat is exhausted, while all the canned stuff is nearly gone. Two weeks will exhaust the available supply.

The volunteers demanded food, but the Spanish government authorities refused to give it and riots are threatened. A delegation is said to be preparing to wait upon United States Consul Williams, as the citizens fear an outbreak. The insurgents control the surrounding country and Chief Aguinaldo sent by Consul Wildman has arrived and with his staff is organizing the rebels.

Foreign residents are moving from Cavite.

Spanish reports say that 500 were killed and 700 wounded in the bombardment by Admiral Dewey.

All classes are waiting anxiously the arrival of our troops.

There is no sickness on our ships.

NEW YORK, May 24.—A special dispatch from Manila says that the German consul there tried to land provisions from a German ship, but that Admiral Dewey refused to permit it. The consul then declared, according to the dispatch, that he would force the landing under the the protection of two German cruisers, but Admiral Dewey threatened to fire upon the cruisers, and the attempt to land the supplies was abandoned.

A MESSAGE FROM THE CHARLESTON.

SAN FRANCISCO, May 24.—The following was brought to the Examiner office by a carrier pigeon:

"On board United States Ship Charleston, 10 a. m., Sunday, May 22.—Griffin, naval pay officer, San Francisco: Please report us now passing lightship. Good weather. All well. HENRY GLASS."

RECEPTION FOR THE PENNSYLVANIA BOYS.

SAN FRANCISCO, May 24.—Great preparations are being made for the reception of the crack Pennsylvania regiment which will arrive here sometime this evening or tomorrow morning. Their camping ground at Fort Richmond is being prepard for them and the ladies of the Red Cross society are working hard to give the easterners a greeting that they will never forget. As there are 606 men and thirty-eight officers in the quaker regiment, it will take hundreds of willing hands and many hours to prepare the luncheon which always awaits visiting soldiers on their arrival in this city. The same canbe said of the preparations for their reception at all California towns through which the train passes.

TWO MORE REGIMENTS EMBARK FOR MANILA.

SAN FRANCISCO, May 24.—Four companies of the Fourteenth infantry (regulars), the full regiment of Oregon volunteers and a picked battalion of fifty of the California heavy artillery left the Presidio today and boarded the transports City of Sydney and Austria, preparatory to starting for Manila.

Yesterday's scenes, when the First regiment of California volunteers marched to the dock, were reenacted today.

Long before daylight the big campt at the Presidio was astir with the men in blue ready to put the finishing touches on their packing. The "regulars," consisting of companies C, D and F of the Fourteenth infantry, marched quickly out of camp and were well on their way to the Pacific Mail dock before the citizens of the town were aware that the movement had begun.

The Oregon regiment, however, did not leave the Presidio until 8 o'clock

By that time an enormous crowd had assembled along the line of march. Just previous to starting the regiment was drawn up in the form of a hollow square and a beautiful stand of colors was presented to it by Colonel Coffeen, formerly in command of the regiment.

Then the signal "forward march" was given and to the strains of the "Red, White and Blue" the regiment swung into columns of fours and marched through the Presidio gateway. The people of San Francisco, realizing that the departing soldiers were already away from their own homes, put extra warmth into their greetings and made the Oregon men feel that they had friends here also.

As the troops marched out of the presidio, the men of the Seventh California volunteers lined the roadway and, though envious of the good luck of their camp comrades in being selected to go before them, gave them vigorous cheers. When the down town section was reached bombs were fired, whistles blown and the crowds yelled words of encouragement to the marching soldiers.

REGULARS START FOR PHILIPPINES.

NEW ORLEANS, La., May 24.—The Eighteenth and Twenty-third regiments of infantry and the Fifth regiment of cavalry, which have been in camp at the fair grounds, will leave this afternoon, the former two regiments for the Philippines via San Francisco and the latter for Mobile.

The Eighteenth and Twenty-third regiments are 1,220 strong and the cavalry number 612. The cavalry will go to Mobile in four transports.

TWO DAYS OF FUN.

Street Railway Will Give Orphans and Newsboys a Ride.

An Invitation Has Been Extended to the Orphans to Go to Robison Park—Newsboys, Too.

The inmates of the orphan asylums in Fort Wayne are to have an outing. The management of the Fort Wayne Consolidated street railway has invited them to have an outing at Robison park and has fixed Thursday or Saturday as the time. The invitation will probably be accepted and the little ones will have at least one day of enjoyment away from the confinement of the asylums.

An invitation has also been extended to the newsboys of the city to take a ride to the park and see the show, possibly on Friday. All newsboys will be asked to present an order from some newspaper and this order will be honorod with street car tickets and theater tickets. One reporter on each paper will be asked to accompany the boys and see that they are taken care of. These outings will be greatly appreciated by the young people who have so few hours of real enjoyment.

SHOT TWO SPIES.

Caught Within the Ranks of Troops.

The Spanish Sympathizers Had Poisoned the Water in Wells and Were Seen by a Guard.

A member of one of the Fort Wayne companies now at Chickamauga writes to a Fort Wayne friend, under date of last Saturday, and says:

"Two Spanish spies were caught here, court martialled and shot this morning at sunrise. They poisoned a well and a guard saw them do it. The men were shot, but I did not want to see them and did not go over, although some of the boys did. Twelve men's guns were taken from them and six were loaded with balls and six were loaded with blanks. The twelve stood up and a piece of paper was pinned over the hearts of the spies. At a signal the twelve men fired and each does not know whether or not he killed the traitors."

In the letter printed yesterday it was stated that suspects were being watched, and if they were found poisoning wells death would be the punishment. The above letter indicates that the spies were located and met their just deserts.

POLICE NEWS.

There was only one prisoner in police court today and he was ordered out of the city.

Fred Helwig reports that fifty feet of three quarter-inch rope was stolen from his barn a few nights ago.

Officer Hobbs was called three times yesterday afternoon to quell family disturbances in the east end of the city.

Valuable specifications of some large building were found on the street and left at the police station where they can be claimed by the owner.

PLAN IS COMPLETE.

Admiral Cervera's Fleet is to be Crushed.

The Armada is Located and Will be Attacked.

Great Naval Battle to Take Place This Week.

American Squadrons Now Closing in on the Spanish War Fleet—The Solace is Under Emergency Orders.

KEY WEST, Fla., May 24.—Every preparation has been made by the United States naval authorities for destroying the Spanish fleet, which is known to be off the island of Cuba. All signs point to a decisive battle some day this week. The hospital ship Solace and her surgeons were ordered long ago to be ready for service at a moment's notice but no fresh orders have been issued.

KEY WEST DESERTED BY THE WARSHIPS.

NEW YORK, May 24.—A special from Key West to the Commercial Advertiser says:

Key West has not been so deserted by warships for weeks as it is this morning. It will never be complained that vessels were kept inactive when there was a prospect of a fight. Nothing is heard of an immediate occupation of Cuba. Everything awaits Sampson's and Schley's movements.

REPORTS FROM HAYTI SAY CABLES NOT CUT.

Copyright 1898, by the Associated Press.

CAPE HAYTIEN, Hayti, May 24.—Inquiries made here at the cable station in regard to the reported cutting of the cables off Santiago de Cuba and Gauntanamo by a United States cruiser show the cables have not been cut.

The cable from this place to Gauntanamo and Santiago de Cuba is in working order.

RATIONS ARRIVE.

Many Carloads of Supplies Reach Chickamauga.

The Soldiers Are Being Rapidly Organized and Get Plenty of Drill Work—No Danger of Fever in Cuba.

CHATTANOOGA, Tenn., May 24.—The work of unloading and storing forty-nine cars of provisions which arrived yesterday and last night was completed today.

Up to today the quartermaster's department had received $295,000 worth of provisions for the volunteers. The value of the clothing and equipments already received amounts to almost as much.

The quartermaster's department is doing remarkably well in its work of caring for the 55,000 men now in camp. The arrivals of this morning were the Third regiment Tennessee infantry and the First regiment Vermont infantry.

The Third Tenuessee, 1,000, officers and men, under Col. J. P. Fyfe, arrived at 4 o'clock this morning, three trains from Nashville. Breakfast was served the men in the city and they were taken to the park at 9 o'clock.

The majority of the men in this regiment are from Chattanooga and thousands of people visited them during their stay in this city.

The First regiment, Vermont volunteer infantry, arrived this morning on four trains over the Southern railway. The regiment is composed of 980 officers and men, under Col. O. O. Clark. It was transferred to the park at noon.

The railroad men are now getting their first rest since the mobilization began. Comparatively few troops are arriving.

In the park today hard drilling is going on in every camp.

The work of training the troops thoroughly is being steadily and vigorously prosecuted.

NO DANGER IN CUBA TO THE VOLUNTEERS.

DES MOINES, Ia., May 24.—United States consul at Mantanzas, A. G. Brice, of Bedford, Ia., was at Camp McKinley today. In an interview he said:

"I wish to assure the volunteers in the different states that there is little danger of the United States soldiers falling victims to disease in Cuba. I speak from experience in the province of Matanzas, where there has been great suffering among reconcentrados.

"The physical ills of the Cubans and Spaniards in the armies result from deplorable sanitary conditions. Field operations are perfectly practicable during the rainy season, if there is a proper observance of the ordinary rules of health. The volunteer need not hesitate to enlist, for with reasonable precautions there is little danger."

TO JOIN SAMPSON.

Two Hundred of the Illinois Naval Reserves Leave Chicago.

CHICAGO, May 24.—Two hundred Illinois naval reserves left here today for service in Admiral Sampson's fleet. They go to Mobile, thence to Key West over the Plant system. All along the line of march and at the depot the reserves were wildly cheered. About 250 students of the University of Chicago marched as an escort of honor of the commanding officer, Lieut. S. W. Stratton, who was professor in the department of physics at the university.

A MOMENT TO REST.

The Crowds Gave President a Little Leisure Today.

Nothing Given Out Before the Cabinet Meeting Concerning the War—Senator Burrows' Opinion.

WASHINGTON, May 24.—President McKinley had an opportunity to devote more time to reading the newspapers today, for there were few early callers.

Mrs. McKinley took advantage of a clear summer's morning for a drive about the city, accompanied as usual by several of her friends.

Up to 10 o'clock the congressional contingent intent on personal interviews included only Senator Burrows, of Michigan, and Representatives Butler, of Pennsylvania; Grout, of Vermont, and Chickering, of New York.

Soon afterwards Senator Platt, of New York, had a conference with the president, and between that time and the assemblage of the cabinet at the regular Tuesday session a number of other senators and representatives were in consultation, almost all of them in relation to war appointments.

Representative Tawney, of Minnesota, presented Capt. Hatch, of Minneapolis, to the president. Mr. Tawney, in discussing the Hawaiian annexation issue, gave his personal opinion that the report of the foreign affairs committee on the Newlands resolution would be taken up in the house the latter part of this week and that liberal time for debate would be allowed.

He had made a personal canvass of the republican side of the house and has found 189 republicans ready to vote for annexation. About two-thirds of them, he said, favor immediate consideration.

Contrary to a published report, Mr. Tawney has not represented to Speaker Reed the sentiment of the house in favor of annexation but he believes a prompt consideration of the resolution will be allowed on the floor.

Senator Burrows, of Michigan, was with the president for some time, but on leaving disclaimed any knowledge of any information throwing light on the war situation. Senator Burrows, however, made no concealment of his personal conviction that there should be 100,000 men promptly sent to Manila to hold the Philippines.

Secretary Wilson was the first of the cabinet to arrive at the white house. Secretary Gage and Postmaster General Emory Smith following on the stroke of 11. Secretary Long, who had just returned from his home in Massachusetts, entered the cabinet room a little late with Secretary of State Day.

Secretary Long, before joining the president and the cabinet, said that the press dispatch from London about the reported destruction of Admiral Cervera's fleet was all the news he had on the subject and that there had been nothing official to confirm it.

The report attracted considerable attention among senators and representatives, who have been eager for news of a conflict between the two navies. Several of them called the attention of the president to it, but succeeded in getting no news concerning it.

THE WORD CONTEST.

The Long Work of Examination is Completed.

The Winners of the Prizes are Known and Announcement Will be Made Next Saturday.

After several months of patient and laborious work on the part of the judges and impatient, and not in all cases good-natured waiting, on the part of the contestants, the winners of the prizes of THE SENTINEL's word contest are known. The work of examination, which has been in progress since December 23 last, has been completed and only a few slight but essential details remain to be finished. The winners of the prizes will be announced in next Saturday's issue of THE SENTINEL and the money will be paid to the successful contestants at the office or in any manner designated by them. Further particulars will be given at that time.

Deck Bound Over

Bernhard Deck, the alleged young forger, had a preliminary hearing before United States Commissioner Logan last evening. Jesse M. Lafollette, of Portland, assistant district attorney, prosecuted the case. The lad was bound over to the United States court and will be taken to Indianapolis to await trial. His bond was fixed at $200.

Judge Hammond and Attorney Stewart, of Lafayette, are in the city today making an examination of witnesses in the case of Biddle vs. the Wabash railway. The examination is being made before Court Reporter Logan.

Mrs. Mulqueen will entertain Fort Wayne hive, No. 6, L. O. T. M. and friends at tea Thursday afternoon, from 2 to 4, in the hall above the Fruit House.

ARMADA IS CRUSHED

Such Rumors are Persistent Today in London.

Sampson and Schley Said to Have Formed a Juncture.

Encountered Cervera Near the Windward Passage.

No Official Report of a Fight Received in Washington—Spanish Fleet Said to be Yet at Santiago.

LONDON, May 24.—Persistent rumors were in circulation here early today to the effect that a great naval battle had been fought in the vicinity of the Windward Passage between the eastern end of Cuba and the westward part of Hayti, in which both the American squadrons closed in on the Spanish Cape Verde squadron, commanded by Admiral Cervera, and completely destroyed the Spanish ships.

A dispatch from Kingston, Jamaicia, to Reuter's Telegram company, yesterday evening, said nothing was known there of the reported battle in the Windward Passage, adding that no American or Spanish warships have visited Jamacian ports since the beginning of the war.

The London newspapers take it for granted that the ships reported yesterday by Lloyd's agent at Para, Brazil, as having arrived there at 9 o'clock on Monday from Rio Janero, are the Oregon, the Marietta and the Nictheroy.

KEY WEST, May 24.—The movements of the United States fleet, which are known here, make it absolutely certain no battle has yet occurred, but an engagement is expected to take place this week. The Spanish fleet has been definitely located.

WASHINGTON, D. C., May 24.—It is stated at the navy department that no news has been received here of an engagement between the fleets and that no news has been received of the arrival of the Oregon at Key West.

Copyright 1898, by the Associated Press.

PORT AU PRINCE, Hayti, May 24.—According to current rumor here the Spanish Cape Verde squadron, commanded by Admiral Cervera, which arrived recently at Santiago de Cuba, subsequently sailed from that port, destination unknown.

MADRID, May 24.—NOON.—It is officially announced that the squadron of Admiral Cervera was still at Santiago de Cuba yesterday.

NEW YORK, May 24.—A Key West correspondent telegraphs to the Evening World that he has information from an unimpeachable authority that the Spanish fleet is still at Santiago.

WASHINGTON, May 24.—The navy department, at 3:15 this afternoon, posted the following bulletin:

The department has no reason to believe that a battle has occured in the Windward Passage. The auxiliary cruiser St. Louis has cut the cable at Santiago de Cuba and San Juan, Porto Rico.

SPAIN CHANGES HER WAR PLANS.

WASHINGTON, May 24.—Notwithstanding the persistent rumors in circulation to the effect that a great naval engagement has been fought in the Windward passage resulting in the destruction of the Spanish fleet, it can be stated positively that the navy department has no information that can in the sightest confirm these rumors. Unless the improbable happens, there is no immediate prospect of a naval engagement of any magnitude in the opinion of the navy officials.

The unanimity with which those best informed express this view almost warrants the conclusion that it is based upon a knowledge that the hostile fleets are again far apart. Indeed there is no certainty that Admiral Cervera is not already bound homeward, providing he has succeeded in securing coal, for he could not make the run back to the Canaries with less than about 2,500 or 3,000 tons.

There are signs in Madrid that have been noted here, seemingly to warrant the supposition that there has been a complete change in the Spanish plan of conducting the war. Indications are believed to point to a relaxation, if not a total abandonment of the efforts to conduct the campaign in Cuba and the West Indian waters. The natural conclusion, if this premise is well founded, would be that the Spaniards were going to concentrate their entire energies to the defense of the Philippines with the view of retaining them in the event peace is forced upon them by virtue of the principle of international law which limits a victorious nation in indemnifying herself from the vanquished to the territory she actually occupies when peace is declared.

So the retreat of the Spanish squadron from the West Indies would be significant, first, in the danger it would place Dewey immediately, and second, in the hint it would convey that the Spanish mind for the first time contemplates the possibilities of peace.

The war board, lately known as the strategy board, had a short session this morning. There appears to be a great misconception on the part of the public and the newspapers as to the nature of this board, its composition, functions and manner of work. According to the popular mind, this board sits in the navy department and with autocratic orders directs the movements of fleets and the execution of plans of campaign down to the very smallest details.

This conception has lead to a good deal of comment, some humorous and some serious, at the expense of the board and the idea had even spread to Europe where so conservative a paper as the London Times has delivered itself of this criticism:

"It would be wise in the future to leave the direction of operations to naval commanders. Councils have never proved capable directors of war. Their proper function is to obtain information and to forward it to the admirals, who must have, as Nelson claimed, the right to act when the fitting opportunity arrived."

Now Secretary Long is a member of the war board; at least he is frequently with it during its sessions and he says that the views of the Times as to the proper functions of a war council express exactly the functions conferred upon and exercised by the naval war board.

MUNICIPAL AFFAIRS.

A Big Remonstrance Filed With the City Clerk.

Opposition to Annexation—Board of Public Works Decides on Certain Improvements.

The meeting of the city council tonight will be a most important one. The big matter for discussion will be the proposed annexation of property south and west of the city, mentioned in THE SENTINEL several weeks ago. This morning a remonstrance signed by twenty-two of twenty-five residents west of Broadway in the addition proposed to be annexed was filed with City Clerk Monning. A remonstrance signed by two-thirds of the property owners defeats annexation, but inasmuch as the signers to the above remonstrance are owners of only a small per cent. of the entire property proposed to be annexed it is believed the council will pass the ordinance for annexation.

BOARD OF WORKS.

The board of works held a regular meeting yesterday and transacted routine business.

A petition was presented, asking that Creighton avenue be paved with brick from Holton avenue to Walton avenue, and it was favorably acted on, the board instructing the engineer to prepare the plans immediately. The engineer was also instructed to prepare plans for paving with brick the five-foot alley between Clinton and Barr streets, from Main to Berry, and for constructing sidewalks on the north side of Leith street, from Calhoun street to the first alley east.

A petition for sidewalks on Fairfield avenue, from Organ avenue to Nuttman avenue, was received and placed on file. A petition for a sewer in the alley between lots 1 and 2, Wagner's sub addition, was also filed. Action will be taken at the next meeting, as the board is desirous of first ascertaining whether owners of adjacent property desire an extension of the sewer beyond the points designated in the petition.

The board closed the contracts with the Alcatraz Construction company, in the matter of paving Calhoun street and a number of south side thoroughfares. The contracts were signed and the board also approved the bonds submitted by the company. The bonds are signed by the American Bonding and Trust company, of Baltimore, and aggregate $18,000. These bonds indemnify the city against loss and also guarantee the durability of the pavements.

Spain's boasted valor is now known to be her ability to avoid a fight.

The story that Sampson had met and defeated the Spanish fleet was merely anticipating what is bound to happen sooner or later.

An Anglo-American alliance doubtless is desirable "for all concerned," but let us wait until we see which party is most in need of it.

If the Spanish admiral came to this side merely to burn coal he could have had less trouble and perhaps more fun by putting the torch to the Spanish fuel heaps at San Juan.

The sensational report printed by Sunday morning newspapers that twelve Spanish warships had been engaged and sunk was in part true. But true only so far as it might refer to Dewey's doings at Manila.

The second trial of M. Emile Zola upon a charge of having libeled the military tribunal which tried Count Esterhazy has begun in Paris, and the Parisians may now divide their time between spitting on the novelist and spitting at America.

One thing daily becomes more evident. Spain is not going to quit till she is licked. And as licking means the destruction of Cervera's fleet it will be some time before Spain will be up to the finish post.

Bunting should be exempted from the operation of the law of supply and demand. The national colors should never rise in price with increased demand for display of the flag. "Old Glory" should be within the reach of the poorest man's pocketbook. It is an evidence of patriotism when the stars and stripes go up, but not when they go up 50 per cent. or thereabouts.

It has been four days and some hours since Boston folk were terrified by reports from Maine fishermen that a "low rakish craft painted black and having two stacks" was seen steaming regardless of orders in the direction of Beantown. Boston common, the Bunker Hill monument and the sacred codfish are still intact and undefiled, but there is no knowing how long this may be. People of other endangered coast towns may have fears, but they know nothing of the distraction that Boston folk know. They have only lives to lose. In Boston there are things infinitely more precious.

So far the war has been all one-sided. The Spanish losses at Manila and in the various engagements along the Cuban coast at Matanzas, Cardenas, Cienfuegos, Cabanas and at San Juan, Porto Rico, aggregate probably fifteen hundred killed and twice that number injured. The American loss in actual hostilities numbers, if the reports are correct, only eight killed and not more than a score wounded, and these figures include those who suffered in Dewey's tremendous victory at Manila. If that ratio is maintained Spain's forces will be wiped out and the United States will suffer no great loss of men.

That the volunteer army is not properly seasoned for an invasion of Cuba is clearly demonstrated by reports from the camps in the south. At Falls Church, Va., and at Tampa, Fla., they are having sultry summer weather, with the mercury ranging in the vicinity of 90 in the shade. Northern boys embarking from the trains are compelled to compelled to march a few miles to reach the camp grounds and with their heavy soldier clothing and accoutrements a tramp of a mile or two is as much as most of them can endure under the extreme heat. The terrific climate of Cuba would incapacitate the most of them from active service. The drill work in the southern camps will season them for active duty in Cuba and they will in a measure become acclimated to semi-tropical conditions. The boys at Chickamauga are more fortunately situated at present. Camp Thomas lies on high ground among the hills and the soldiers there are not suffering the discomfiture of unwonted heat. It will be some time before the volunteers are fit for Cuban service.

Mr. George F. Felts has assented to the use of his name as a candidate for membership on the city school board to succeed Mr S. M. Foster, whose term expires next month. It is due to Mr. Felts to say that in deciding to become a candidate he has only yielded to more than ordinary pressure from an unusual number of democratic friends. Of his fitness and capacity for the position nothing need be said. His qualifications will be readily conceded. Mr. Felts says he is in favor of applying the interest of the school fund to educational uses, with special reference to the public library, a precedent established by Mr. Foster. He also announces that he favors a restoration to the city council of the authority to fix the city school levy.

Although nothing definite has come from official sources in Washington concerning the alleged intention of the president to call for more volunteer soldiers, the concensus of opinion of those well informed is that another call will soon be made. The job of driving the Spaniards from Cuba begins to loom up as a vastly larger undertaking than it was expected to be, and the necessity of holding the Philippines has injected into the military problem a new complication that was not counted on when the president's first call for troops was made. It is held by many expert military men that complete conquest of the Philippines will require from thirty thousand to fifty thousand soldiers. Some estimates go higher than that. In Cuba it was thought an army of invasion of one hundred thousand men would be sufficient. But when that number was accepted as approximatly about what would be needed, the revolutionary armies were believed to be many thousands stronger than they have since been learned to be. If recent official information procurred by the war department is reliable the Cubans can now be relied upon to furnish a very few thousand fighting men. It now looks as though not less than 200,000 soldiers will be necessary to invade Cuba and drive Spain's flag from the island. After the campaign in Cuba has begun, it may be found that even that number will not furnish a strong enough force to invest all the fortified places and hold them after they are taken. The capture of porto Rico is also probably a part of the general plan of war against Spain, and a large force will be necessary in that island if it is to be taken and held. It is highly probable, therefore, that as soon as something like disciplined organization has been effected with the volunteers already in camp, another call will be made for soldiers. There appears to be work ahead for not less than 100,000 more troops than are now under arms.

OTHERS SUFFER FROM WAR

West Indian Islands Distressed by Rise in Prices of Foodstuffs.

Washington, May 24. — Third parties have begun to suffer from the war, according to reports received from United States Consul Ayme, at Guadaloupe, and it may be that other West Indian islands are to share in the burdens imposed upon Guadaloupe by the existence of hostilities.

He reports that there is a scarcity of flour and other provisions and also of lumber, owing to the cessation of arrivals of vessels from the United States.

Probably these do not care to venture the chance of capture of their cargoes by Spanish warships. The last ship arrived March 26th and when she cleared there were but 2,500 barrels of flour on the island. Brokers bought up all of this, as well as of other provisions, at an advance of from 8 to 10 per cent. and have raised prices. There is practically a corner on United States provisions, as but a small amount is produced on Guadaloupe, and the prices of those also have advanced. The consul fears serious results if prices rise much higher so that suffering follows.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continued constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured—Logan M. This is What Fort Wayne Presented to Bob Gilkes.

Al. Whitridge Pitched His First Game and Was Given Gilt-Edged Support—Notes.

Hundreds of people stayed away from yesterday's game because of the poor exhibition put up by the Fort Waynes the day before. There were a couple of hundred enthusiasts who would not be downed, and their attendance was repaid by seeing Fort Wayne play one of those games which were so common the latter part of last season. Al Whitridge, late of Springfield, pitched his first game for the Hoosiers and he had lots of fun with Bob Gilks' erstwhile terrific batters. Campbell caught in first-class style and jollied the new pitcher along, while almost every man on the team had a word of encouragement for him. Cooke got on the coaching lines once or twice, and that voice was enough to brace up players as dead as the Youngstowns must be by this time.

Roger Bresnahan, the young Toledan who twirled for Washington last season along with "Cy" Swaim, essayed to pitch for the Toledoes. Probably yesterday's effort was not the best Mr. Bresnahan had up his sleeve, but if it is he should get a hustle on himself and secure a job in the Robison Park league before he is completely exploded. He's a nice young man, too, but not very pretty. There are some other teams in the Inter-State he may be able to beat, but when the Fort Waynes are at themselves Mr. Bresnahan would best be kept in the stable.

And it was joyful to the handfull of cranks to see the Fort Waynes field. Peck Sharp played around second base not unlike he did a quarter of a century ago when he was with the Waterloo, Iowa, team. Charley Babb was at his best, too, and ate up two or three base hits with more relish than he devours a Crescent hotel lunch. Kihm, Campbell, Cooke and Babb batted like they did last season, and this is why Fort Wayne won the game. Here's how the runs were made:

Sharp made a single in the first after Hickey was out, but O'Meara and Campbell were out.

Kihm went to first on balls in the second and Cooke sacrificed him to second. Babb got a base on balls and then Belden hit to Bresnahan, who tried to throw Babb out at second, but made a poor throw and the bases were full. Kihm scored a minute later while Babb was being put out at third on Whitridge's hit to McDonough.

In the third, after two were out, Campbell made a single and scored on Kihm's three-bagger to right field.

Babb, the first man up in the fourth, was hit by a pitched ball and was sacrificed to second by Belden. He scored on Hickey's single.

Two more runs was scored in the seventh on singles by Campbell, Cooke and Babb, a stolen base and wild pitch.

There was a pretty batting rally in the ninth. Campbell led off with a three-bagger, Kihm followed with a hit toward Smith, who fell down just as he was about to get it on the bound and Kihm went to third. Cooke's three-bagger sent him home and a moment later Babb brought Cooke in with a single. A pretty double play ended the inning.

And Toledo didn't get a run.

WILL TRY SUNDAY BALL AGAIN.

Springfield, Ohio, May 24.—The Springfield Inter-State league club has decided to try Sunday ball again next Sunday. New Castle is to be the opposing team. The Law and Order league last year succeeded in suppressing it, at great expense, however. The directors believe they will not interfere this season.

NEW CASTLE, 7; DAYTON, 6.

Dayton, Ohio, May 24.—New Castle won in the tenth. A bad decision by the umpire gave them four in the fifth, otherwise they would have been beaten. The score:

NOTES.

Herr and Keenan are the opposing pitchers today.

Alloway and Ewing will do the twirling in tomorrow's game.

Babb and Sharp were strictly in it yesterday. No better infielding was ever seen on the grounds. Hickey made one nice stop.

If Whittridge is shoulder bound, as many people intimate, a few more shoulder bound pitchers to do such work as he did yesterday is what Fort Wayne wants.

Belden has the "ear-marks" of a great outfielder, and when he regains his health completely there will be none in the Inter-State to play the outer garden as he does.

Logansport Reporter: "The features of the game were the pitching of Hutton and the Fort Wayne chap and the fielding of Collars, who played here with the Brewery team in 1890."

Fort Wayne doesn't need new ball players. Yesterday's game demonstrated that fact. If the present members of the team play the game they are capable of more games will be won than lost.

There are not many better ball players in the Inter-State league than Captain Bob Gilks, of the Toledoes, and certainly there is no better outfielder Bob is a gentleman all the time and has friends in every city he visits.

The way Kihm, Cooke, Campbell and Babb batted the ball reminded the cranks of the many games last season when, with defeat staring the Hoosiers in the face, a batting rally would send runs enough across the plate to win.

Logansport Pharos: "The Shamrock team was made up of men of all sizes and no two of their uniforms are alike, but they know how to play base ball, just the same. They were always in the game and never lost their heads."

Manager Strobel says that the Inter-State league is faster this season than ever. Last year when his team got in front it was never headed, while this season he has to fight for every victory won and drops a big percentage of games at that.

Manager O'Meara has telegraphed an infielder named Spencer to come to Fort Wayne. Spencer played with the Houston, Tex., team until the Southern league gave up. Spencer is recommended as a first-class player, and before the commencement of the season Nashville and Houston had a contest for his services. The rumor that Cooke, Fitch and Sharp had been released is untrue, though it is possible that one of the trio will be released. An outfielder has written for a trial.

Manager O'Meara this afternoon released "Goat" Fitch. The little short stop was one of the best in the position that played in the Inter-State league. He covered plenty of ground and was very fast at the front end of a double play. He was not loath to take desperate chances, but as he wasn't batting very hard and as the team was losing somebody had to go, and "Goat" drew the prize. A new outfielder named Burt arrived in the city today, and is recommended by Bob Gilks, who ought to give him a trial if he is so good.

I. G. Stafford has sold his printing office to Oliver Hebert, who will conduct the business as heretofore, at 117 Barr street, corner Washington.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was—Free trial bottles of this Great Discovery at Dreier & Bro.'s drug store. Large bottles 50 cents and $1.00.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters;' and, to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bot. at Dreier & Bros. drug store.

SYSTEM IS PERFECT.

Atlantic Coast Signal Service Now Complete.

Signal Stations From Maine to Texas on Constant Watch for Hostile Fleets—Details of the System.

Washington, May 24.—After several weeks of work along the entire stretch of the Atlantic and gulf coasts, the navy department has completed the most comprehensive and efficient system for observing the approach of a hostile fleet that has ever been put into operation.

A new bureau has been created for this purpose known as the coast signal service, in charge of Captain Bartlett, who attends to this as well as the work of the naval board of information.

The system has the services of 2,300 men stretched along the coast from Bar Harbor, Me., to Galveston, Texas. These are divided into thirty-four central stations about sixty to 100 miles apart along the coast. The stations are in turn connected directly by telegraph with the coast signal office of the navy department in constant telegraphic touch with the entire stretch of Atlantic and gulf coasts.

Secretary Long projected this plan a month ago, and $75,000 was set aside to establish the points of observation along the coast. After selecting the thirty-four central points from Maine to Texas, rush orders were given to build observation towers and houses for the observers. The naval militia was drawn on to man the different observation towers, and five militiamen with the rank of naval quartermasters, are now on duty at each of these stations. The towers are completed, and also the small houses for their living purposes.

There are 233 of these militiamen now in service. The next step was to have the light house service made an adjunct to the coast observation. This was done through the co-operation of the treasury department, and the lighthouse force of 1,200 men scattered from Maine to Texas are assisting the work of observation.

The life saving service was brought into similar co-operation, so that now 1,060 life savers are added to the observation force.

The thirty-four central stations with the numerous lighthouses and life saving stations make a complete chain of observation points, all connected by telegraph or telephone with one another and with the navy department. By arrangement with the telegraph companies the reports from these observers take precedence over the private telegraphic business, so that the navy department is enabled to get immediate telegraphic notice of the approach of any hostile fleet or suspicious ship.

The work of observation has been thoroughly systematized. Watches are kept on the tower throughout the day and night. The life saving crews in particular are assigned to night duty and they patrol the beach throughout the night on the outlook for approaching ships.

All the central points and the observers have been supplied with telescopes and full appliances for marine observation. They are also supplied with torches, rockets and other paraphernalia for signaling. The results already secured have shown the efficiency of the plans adopted. Naval vessels passing along the coast are able to signal day or night by torches and otherwise with the naval observers along the beach and these signals are immediately telegraphed the navy department here. Thus the naval vessels can be kept in constant communication with the department without the necessity of coming into port.

Captain Bartlett sleeps throughout the night alongside the telegraph instrument, ready to convey to his superiors word of the approach of any hostile ship.

The first thing each morning reports are received from every point from Bar Harbor to Galveston stating briefly that everything is quiet or otherwise, as the case may be. Thus far the day reports have been uniformly reassuring, but the night reports have been at times alarming.

The observers, being alert and new to their work, report every suspicious light seen off shore and frequently attach serious significance to it.

Since Captain Bartlett has answered some of the scare reports with the laconic message, "Sea serpent," the observers have been more cautious and the reports show evidences of careful observation.

With the system in its present perfected condition the navy department feels assured that it knows exactly the condition of affairs along the entire stretch of Atlantic and gulf coast.

The system is simply a precautionary one, as the department has had no reason to believe that Spanish ships were menacing points along the coast.

FORMAL REPORT MADE.

State Department Responds Concerning Hungarians Killed at Hazelton.

Washington, May 24.—The state department has made formal response to the Austrian government as to the Hungarians killed at Hazelton, Pa., in the riots of last fall.

The governor of Pennsylvania sent in a long report made up mostly of the record of the celebrated trial, and this was reviewed by the attorney general and supplemented by a strong argument to maintain the position taken by our government, namely, that it was not responsible, under the circumstances, for the killing.

THE B'NAI BRITH.

The Three Days' Session Closed This Afternoon.

The Delegates Yesterday Enjoyed an Excursion About the City and Last Night Attended a Banquet.

The delegates to the B'nia Brith convention have completed the labors of their three days' convention and are now en route to their homes.

Yesterday afternoon the local committee showed the visitors about Fort Wayne and tendered them a ride to Robison park, Fort Wayne's beautiful summer resort.

Last night they were invited by Emek Baracha lodge to sit down to a banquet at Standard hall, which had been tastily decorated for the occasion. Landlord Stutesman, of the Randall, was the caterer, and he served up a dinner that was fit for kings, the spread being one of the finest ever served in Fort Wayne. Julius Nathan acted as toastmaster. Rabbi Cohn offered prayer and M. Frank delivered an address of welcome. President F. S. Spigel responded to the toast, "It Was, It Is and It Will Be." Dr. Wolfenstein told of the Cleveland orphans' asylum and Jacob Fruth responded to the tost, "Culture, Its Worth and Influence." "Jewish American Institutions" was responded to by M. A. Marks, and Victor Abraham talked of "Our Country." Joseph Freiburger responded to the toast of "The Ladies." Reineke's orchestra furnished music for the banquet and the ball which followed.

TODAY'S SESSION.

The important business of today's session was the election, which did not occur until just before adjournment early this afternoon. The morning session was devoted to the discussion of matters of especial interest to the membership of the organization. The following officers were chosen:

President—M. Friedman, Denver, Colo.

First Vice President—Samuel Bowman, St. Louis, Mo.

Second Vice President—Marcus Sulzer, Madison, Ind.

Secretary—Victor Abraham, Cincinnati.

Treasurer—M. Baner, Cincinnati.

A sergeant-at-arms and general committee were also elected and then final adjournment followed at about 2 o'clock.

Mr. Friedman, the new president of the company, said to The Sentinel that the delegates had enjoyed the hospitality of the people of Fort Wayne and the convention had been an instructive and pleasant one to all who attended.

HONORED AGAIN.

Mrs. Chester Durnell Re-elected to Office.

Chosen President of the Insurance Branch of the L. A. of the B. of L. E.—Affairs of the Shop and Rail.

Mrs. Chester Durnell, of this city, has again been the recipient of one of the highest honors within the gift of the Ladies' Auxiliary of the Brotherhood of Locomotive Engineers, viz: president of the insurance branch of the order. Mrs. Mary C. Orr was also re-elected to the office of secretary-treasurer. There were other candidates for these offices, but the ladies named carried the election by overwhelming majorities, an evidence of their great popularity and efficiency.

Mrs. Durnell and Mrs. Orr have held the positions of president and secretary, respectively, since March, 1890, when they were appointed to their positions by Mrs. W. A. Murdock, the grand president, under powers conferred on her by the second convention of the auxiliary, held in Chicago in September, 1889. At the next regular convention of the auxiliary, held in Allegheny, October 15, 1890, the grand president's selections were indorsed by the convention, which elected them for the next regular term of two years. Since that time Mrs. Durnell and Mrs. Orr have been re-elected at each session in which their terms expired, and their re-election at the present session was a handsome recognition of the ability and faithfulness with which they have managed the affairs of the insurance department.

There has just been erected in the Mount Clare shops of the Baltimore and Ohio at Baltimore a new high pressure steam boiler for the purpose of testing locomotive boilers under steam pressure. Heretofore a locomotive had to be hauled to the outside of the shop, fire built in the fire box and steam got up in order to make a test, this method consuming much valuable time. Under the new arrangement all this is done while the engine is standing in the shop, a system of steam pipes having been so arranged that the engines on any track in the erecting shop can be tested without being removed.

A WAR RIPPLE.

Dr. Henry C. McCook Ordered to Join His Regiment.

Call Reaches Presbyterian Assembly—The Charnley Embezzlement Figures in Home Missions Report.

WINONA LAKE, Ind., May 24.—A war ripple reached the Presbyterian general assembly today in a telegram calling Dr. Henry C. McCook, of Philadelphia, to rejoin his regiment, the Eighth Pennsylvania, stationed at Morristown, Del.

Before leaving he was given an opportunity to present the work and claims of the Presbyterian Historical society.

Elder John E. Parsons, of New York, offered a resolution directing a cablegram to be sent to Queen Victoria congratulating her upon this, her birthday.

Only one negative vote was heard when the question was put. The regular order of the day was the report of the board of Home missions presented by Dr. John Dixon, of Trenton, N. J., chairman of the stated committee.

The report began with an extended review of the work in the whole field, saying in conclusion that "In spite of circumstances, the financial year has been a good one."

The year opened with a cash debt of $147,276 and closed with a debt of $167,839, an increase of $20,562. Its size is accounted for by the change from quarterly to monthly payments of salaries to the missionaries in the field.

Contributions amounted to $698,940, a decrease of $93,164 from last year, when special efforts were made.

Operating expenses were cut down by $7,515 and administration cost $30,578. For missionary work $421,748 were given and for Sunday school work $277,192.

The total expenditures amounted to $722,965, of which $440,280 were for mission work and $225,866 for Sunday schools.

Under the board are 1,383 missionaries, 84,682 church members, 2,180 Sunday schools with 123,622 pupils. Of the 1,632 churches under the care of the board, ten became self-supporting during the year.

The new deficit on account of the operation of the Presbyterian building in New York, of which the board is half owner, amounts to date to $21,485, but this amount is covered by a special loan, so that it is no burden upon the work of the board. It is estimated that if the whole of the building were rented the board would receive a net income from it of $3,786, besides free rental for the administration of the board.

The board of aid for colleges and academies, in its annual report, said the board supposed, Tuesday, July 6, 1897, it held a large amount in cash and securities. The next day it learned that $45.12 constituted its entire assets, the treasurer, Charles M. Charnley having embezzled the remaing $61,239.06.

The case was placed in the hands of the surety company which was on Mr. Charnley's bond and they took him into custody but he escaped.

Every effort has been made to trace and arrest him but not a clue has yet been discovered.

An honored friend loaned $10,000 for immediate necessities, and members of the board and synods made prompt and generous contributions for subscription, and the board was able to close the year without a deficit and without using any of the ordinary income of the board for the purpose to replace nearly all the embezzled funds except a small remainder, for which it held good pledges.

The year on the whole has been the most prosperous in the board's history.

The expenses have been reduced twenty per cent. The number of students was 2,733, a gain of sixteen. The receipts were $145,246, and the expenses $102,461.

The cash on hand amounts to $13,785.

Drs. Dixon and Charles L. Thompson, recently elected secretary of the board, addressed the assembly on the board's work.

The assembly greeted Dr. Thompson with prolonged applause and his maiden speech was punctuated by vociferous applause. During the session a telegram was received from the church at Clinton, N. J., announcing a gift of $20,000 toward the board's debt, and another gift of $5,000 from a commissioner was announced by Dr. Thompson. For next year the board desires $867,000 to pay the debt and prosecute its work.

A fraternal telegram from Cumberland Presbyterian church was read.

David Hirsch, a prominent delegate to the B'nai B'ith convention, celebrated his thirty-ninth birthday anniversary yesterday by inviting ten friends to a sumtuous dinner which was served at the Wayne hotel. A special menu was prepared and for the occasion Mr. Hirsh had printed a handsome menu card. While the party were seated at the table the lights were turned down and a waiter entered with a big cake in which were burning thirty-nine candles, one for each year of Mr. Hirsch's life. The host is one of Louisville, Ky.'s, most prominent business men and the select party of friends were lavish in their wishes that he should enjoy for many years to come the good things of this world.

Nelson Strum has returned from Oak Harbor, Ohio, where he attended the funeral of his uncle, Mr. S. Barnes, who for a number of years was a member of the firm of Shuch & Co., of Monroeville. Mr. Barnes was born in Monroeville in 1850. One son, Harlen, survives him.

The Wayne Tent band will next Monday evening give an entertainment and hop at Schroeder hall.

TO MRS. PINKHAM

From Mrs. Walter E. Budd, of Patchogue, New York.

Mrs. BUDD, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"DEAR MRS. PINKHAM:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now I feel so well and strong, have no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."

Feeding the Fire.

The most powerful engine must stop if the fires are not fed. Man is the most wonderful piece of machinery in the world, yet no matter how strong and well-made his bodily frame may be, if the fire of life within him is not constantly fed his limbs and muscles become powerless and useless.

The reason men become helpless and diseased is because the food they eat, which is the fuel of life, is not properly digested and appropriated by the stomach and nutritive organs. It is not completely transformed into the strength and working power which is to man what steam is to the engine.

That wonderful power-making "Golden Medical Discovery," invented by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., imbues the human digestive juices and blood-making glands with capacity to extract abundant nourishment from the food. It builds up organic tissue, nerve fiber, hard muscular flesh and working force. It gives a man *steam*.

What it did for Mr. F. S. Hughes, of Junction, Hunterdon Co., N. J., is given in his own words. He writes: "I received your kind letter, and in reply would say that mine was a bad case of kidney and liver trouble, and that six bottles of Dr. Pierce's Golden Medical Discovery and four bottles of little 'Pellets' effected a complete cure. It is well known that almost every engineer is troubled more or less with kidney trouble, especially on our fast express trains. I run one hundred and forty-four miles on these trains every day in the week, and have had no return of the trouble since taking the remedies, nearly three years ago."

HOW TO MAIL LETTERS.

Postoffice Renews Instructions to Persons Writing to Soldiers.

WASHINGTON, May 24.—The postoffice department renews its request to all persons addressing mail to officers or privates, or other military camps throughout the country, to plainly write upon the letter or parcel the company, regiment and state. For example:

'John Doe, Co. D, 18th Illinois infantry, Falls Church, Va.'

At Camp Alger, which receives its mail from Falls Church, Va., there are located a number of regiments bearing the same numerical designation, and it is necessary in addressing mail to a member of the regiment to have the state name attached.

GETS SIX MONTHS.

Wire Tapper Stone Sentenced to Jail in Chicago.

CHICAGO, May 24.—Oscar M. Stone began today serving a six months' sentence in jail for wire tapping. The prisoner is believed to have been the most successful wire tapper in the country. The sentence in this case was pronounced by Judge Grosscup, of the United States circuit court.

The particular offense was interfering with the wires of the Western Union Telegraph company a few miles outside of Chicago, just across the Indiana border.

FALLING
HAIR
RESTORED
After I was taken ill my hair commenced to fall, and turned gray rapidly. I commenced to use CUTICURA. The scalp became healthier and more natural every day. Now I have a crop of fine brown hair all over my head about an inch and a half in length. My nurse is delighted because the new hairs are brown. I never had very luxuriant hair, even in my youth. It is as thick on my head to-day as it ever was, and CUTICURA did it.

FLEETS WILL UNITE.

Admiral Camara to Sail from Cadiz Tomorrow.

Will Reinforce Cervera's Squadron Off Cuba.

Rumors That the Fleet May Already Have Sailed.

Dispatches from Madrid Say Camara Has Been Fully Instructed and Returns to Cadiz—War News from Abroad.

LONDON, May 24.—A dispatch to the Evening News from Madrid, published this afternoon, says:

"No news is allowed of Cadiz, and although it is announced today that Admiral Camara starts hence tomorrow, to reinforce the fleet, it would not be surprising to learn that the squadron has already left, and that the presence of Admiral Camara, as well as the official announcements anent the fleet soon sailing westward, have been a blind to cover its departure.

"There is some anxiety here as to whether Admiral Cervera's entire squadron has been able to re-unite in Cuban waters. If the ministers are aware of the precise whereabouts of Admiral Cervera, they are keeping it secret."

MADRID, May 24.—Noon.—According to published news here, Admiral Camara, the commander of the Cadiz squadron, has been fully instructed and returns to Cadiz tonight.

LONDON, May 24.—A special dispatch from Madrid today says: Evidently the program in regard to the Philippine islands has been changed. It is believed here that there will be no immediate engagement in Cuban waters, but Admiral Cervera will draw off the enemy while the Cadiz fleet relieves Havana.

SECRET ORDERS ARE GIVEN TO CERVERA.

MADRID, May 24.—Noon—A dispatch received from Havana says:

"Secret orders have been given to Admiral Cervera as to what course to pursue in the event of the Americans attempting to cut communication between Cuba and Spain.

"Americans continue to occupy stations outside of Havana, Cienfuegos, Cardenas and Santiago de Cuba. There are now nineteen American warships before Havana."

It is reported that the Spanish government has purchased another vessel to be used as an armored cruiser.

As cabled to the Associated Press, from Bremen yesterday, the North German Lloyd steamer Havel has been sold to a firm at Hamburg and sailed yesterday, presumably for the Mediterrean. The purchasers it was added do not appear to be ship owners. A report was current last week that the Havel had been sold on account of the Spanish government. She is a steel vessel of 6,875 gross tons and has developed a speed of between eighteen and nineteen knots in passages between New York and Southampton. She was built in 1890 at Stettin.

SPAIN'S NEW MINISTER OF FOREIGN AFFAIRS.

MADRID, May 24.—Duke Almodovar de Rio has accepted the portfolio of minister of foreign affairs, offered to but declined by Senor Leon y Castillo, the Spanish ambassador at Paris. The duke informed the correspondent of the Associated Press that he does not desire the office, but accepts it on patriotic grounds.

The new minister added:

"Every Spaniard is bound to devote all his powers to the defense of the country."

It is believed Senor Gamazo, the present minister of public instruction and liberal leader, will replace Senor Puigcerver, now minister of finance, who has absolutely declined in the cortes to agree to an income tax and who is consequently expected to resign.

Senor Gamazo favors the proposed impost. It is said that the concentration of Spanish troops in the neighborhood of Gibraltar is due to an increase in the British military preparations.

The Liberal, Premier Sagasta's organ, says that the diverging interests of the powers preclude for the present any definite prompt diplomatic action giving Spain powerful European backing.

POWERS TO INTERVENE WHEN THE TIME COMES.

NEW YORK, May 24.—A dispatch to the World from London says:

A veteran diplomat, who represented a continental power at various capitals for many years, but is retired from active service now, though well informed on current international affairs said:

"I expect European interference in this war but not at the present stage because the continental powers can find no pretext for stopping it as long as Spain holds out gamely.

"I have reason for supposing that Austria is only waiting for an opportunity to do something for Spain. But the Austrian emperor feels that he cannot go against the interests of the triple alliance by playing too much into the hands of France or Russia or attempting to lead Italy and Germany to pick a quarrel with the United States.

"Then, again, the emperor of Austria knows that France and Russia have many interests themselves to make them hesitate about causing an open rupture with America or increasing the already visible tension of their relations consequent on too public a show of sympathy with Spain in the Russian and French press.

"The continental powers will interfere the instant events will give them an opportunity of appealing to the better, nobler feelings of the American people and president, asking them to show forbearance and generosity and not to insist upon making use of their superior power and resources to make 'Spain feel too heavily the consequences of her gallant struggle.' "

After a pause the diplomat added with great earnestness:

"Come, don't you think the recent speeches of Sagasta, Silvela and even that horrid republican, Salmeron, point the same direction as my inferences? Cannot you read through the lines that those who can see beyond the popular agitations—which were very natural at the outset—really feel in their heart of hearts that Spain, like all disabled, sinking ships in a terrible storm, will have to save the noble craft by casting part of the cargo overboard after all?"

"Sir, Spain survived the loss of her American mainland possessions and will survive the loss of Cuba if she keeps the rest and averts revolution and civil warfare."

NORWEGIAN BARK TO BE SPANISH COLLIER.

LONDON, May 24.—The Daily Chronicle publishes the following with reserve:

A vessel flying the Norwegian flag and sailing with Norwegian papers has been fitted up in London as a coal hulk on an elaborate scale. She has been fitted from one end to the other with electric light and has been, in fact, altered from stem to stern to receive and discharge coal in large quantities.

Some days ago she was cleared by the Norwegian consul in London and proceeded to Cardiff, where she will take on 3,600 tons of coal. Then she will be cleared, our information goes, for a neutral port and will proceed in tow of a tug to Cape Verde to act as a receiving hulk, to which Spanish war vessels will go for coal.

She will lay up in a bay off the African mainland, where her presence will be unnoticed, and will be refilled from time to time by fast steamers coming from various continental ports.

SPAIN HAS SOLDIERS READY TO LEAVE CADIZ.

LONDON, May 24.—A Barcelona dispatch to the Chronicle, dated Sunday, reports:

"A steamer took 1,000 soldiers to Cadiz yesterday. There was no excitement.

"The troops are bound either for the Canaries and Ceuta or for the Philippines, though the sending of reinforcements to the Philippines probably has been postponed indefinitely.

"The obsolete ironclad Numancia has arrived here from Cadiz and is being fitted up as a guard ship.

"Two trans-Atlantic liners are in the port and the batteries along the coast are being repaired.

"The officials here boast that this city has been undisturbed throughout the trouble but great misery has resulted from the impost on raw materials and through the falling of the coinage. The workmen's committee sent a deputation to the local governor yesterday complaining bitterly. The press sympathizes with the workmen."

DEATHS AND FUNERALS.

George W. Keim, the six-months-old child of Mrs. Florence Keim, died at the home of his mother, at No. 2 Thomas street, late last night, from exhaustion.

DAWSON.

Mrs. Helen Dawson, for thirty years a resident of Fort Wayne, died at the home of her son, at Indianapolis, yesterday. She was about seventy-five years of age, and well known among the older residents. She leaves three sons, Andrew J., the Pennsylvania conductor of this city; James, a police captain at St. Louis, and John, at Indianapolis, at whose home she died. The remains will be interred at Coldwater, Mich.

HANNA.

The time for holding the funeral of the late J. T. Hanna has been changed and it will be held tomorrow morning at 10 o'clock under the auspices of the Scottish Rite Masons, Rev. Dr. D. W. Moffat officiating.

Situation in Manila Said to be Desperate.

Food Supplies Will be Exhausted In Two Weeks.

Insurgents in Control Outside of the City.

Arrival of the American Troops Is Anxiously Awaited—Spanish Lost Heavily at Bombardment of Cavite.

WASHINGTON, May 24.—The navy department today received a cablegram from Admiral Dewey, as follows:

"Manila, May 20, via Hong Kong, May 21.—Secretary Navy, Washington:—Situation unchanged. Strict blockade continued. Great scarcity provisions in Manila. Foreign subjects fear an outbreak of the Spanish soldiers, and they will be transferred to Cavite by the foreign men of war in the harbor. Aguinaldo, the rebel commander-in-chief, who was brought here from Hong Kong, on the McCulloch, is organizing a force of native cavalry, and may render assistance that will be valuable. DEWEY."

NEW YORK, May 24.—A copyrighted dispatch to the World from Hong Kong, dated May 21, says:

The situation at Manila is desperate. Food is scarce and meat is exhausted, while all the canned stuff is nearly gone. Two weeks will exhaust the available supply.

The volunteers demanded food, but the Spanish government authorities refused to give it and riots are threatened. A delegation is said to be preparing to wait upon United States Consul Williams, as the citizens fear an outbreak. The insurgents control the surrounding country and Chief Aguinaldo sent by Consul Wildman has arrived and with his staff is organizing the rebels.

Foreign residents are moving from Cavite.

Spanish reports say that 500 were killed and 700 wounded in the bombardment by Admiral Dewey.

All classes are waiting anxiously the arrival of our troops.

There is no sickness on our ships.

NEW YORK, May 24.—A special dispatch from Manila says that the German consul there tried to land provisions from a German ship, but that Admiral Dewey refused to permit it. The consul then declared, according to the dispatch, that he would force the landing under the the protection of two German cruisers, but Admiral Dewey threatened to fire upon the cruisers, and the attempt to land the supplies was abandoned.

A MESSAGE FROM THE CHARLESTON.

SAN FRANCISCO, May 24.—The following was brought to the Examiner office by a carrier pigeon:

"On board United States' Ship Charleston, 10 a. m., Sunday, May 22.—Griffin, naval pay officer, San Francisco: Please report us now passing lightship. Good weather. All well. HENRY GLASS."

RECEPTION FOR THE PENNSYLVANIA BOYS.

SAN FRANCISCO, May 24.—Great preparations are being made for the reception of the crack Pennsylvania regiment which will arrive here sometime this evening or tomorrow morning. Their camping ground at Fort Richmond is being prepared for them and the ladies of the Red Cross society are working hard to give the easterners a greeting that they will never forget. As there are 900 men and thirty-eight officers in the quaker regiment, it will take hundreds of willing hands and many hours to prepare the luncheon which always awaits visiting soldiers on their arrival in this city. The same can be said of the preparations for their reception at all California towns through which the train passes.

TWO MORE REGIMENTS EMBARK FOR MANILA.

SAN FRANCISCO, May 24.—Four companies of the Fourteenth infantry (regulars), the full regiment of Oregon volunteers and a picked battalion of fifty of the California heavy artillery left the Presidio today and boarded the transports City of Sydney and Austria, preparatory to starting for Manila.

Yesterday's scenes, when the First regiment of California volunteers marched to the dock, were reenacted today.

Long before daylight the big camp at the Presidio was astir with the men in blue ready to put the finishing touches on their packing. The "regulars," consisting of companies C, D and F of the Fourteenth infantry, marched quickly out of camp and were well on their way to the Pacific Mail dock before the citizens of the town were aware that the movement had begun.

The Oregon regiment, however, did not leave the Presidio until 8 o'clock.

By that time an enormous crowd had assembled along the line of march. Just previous to starting the regiment was drawn up in the form of a hollow square and a beautiful stand of colors was presented to it by Colonel Coffeen, formerly in command of the regiment.

Then the signal "forward march" was given and to the strains of the "Red, White and Blue" the regiment swung into columns of fours and marched through the Presidio gateway. The people of San Francisco, realizing that the departing soldiers were already away from their own homes, put extra warmth into their greetings and made the Oregon men feel that they had friends here also.

As the troops marched out of the presidio, the men of the Seventh California volunteers lined the roadway and, though envious of the good luck of their camp comrades in being selected to go before them, gave them vigorous cheers. When the down town section was reached bombs were fired, whistles blown and the crowds yelled words of encouragement to the marching soldiers.

REGULARS START FOR PHILIPPINES.

NEW ORLEANS, La., May 24.—The Eighteenth and Twenty-third regiments of infantry and the Fifth regiment of cavalry, which have been in camp at the fair grounds, will leave this afternoon, the former two regiments for the Philippines via. San Francisco and the latter for Mobile.

The Eighteenth and Twenty-third regiments are 1,220 strong and the cavalry number 612. The cavalry will go to Mobile in four transports.

TWO DAYS OF FUN.

Street Railway Will Give Orphans and Newsboys a Ride.

An Invitation Has Been Extended to the Orphans to Go to Robison Park—Newsboys, Too.

The inmates of the orphan asylums in Fort Wayne are to have an outing. The management of the Fort Wayne Consolidated street railway has invited them to have an outing at Robison park and has fixed Thursday or Saturday as the time. The invitation will probably be accepted and the little ones will have at least one day of enjoyment away from the confinement of the asylums.

An invitation has also been extended to the newsboys of the city to take a ride to the park and see the show, possibly on Friday. All newsboys will be asked to present an order from some newspaper and this order will be honored with street-car tickets and theater tickets. One reporter on each paper will be asked to accompany the boys and see that they are taken care of. These outings will be greatly appreciated by the young people who have so few hours of real enjoyment.

SHOT TWO SPIES.

Caught Within the Ranks of Troops.

The Spanish Sympathizers Had Poisoned the Water in Wells and Were Seen by a Guard.

A member of one of the Fort Wayne companies not at Chickamauga writes to a Fort Wayne friend, under date of last Saturday, and says:

"Two Spanish spies were caught here, court martialled and shot this morning at sunrise. They poisoned a well and a guard saw them do it. The men were shot, but I did not want to see them and did not go over, although some of the boys did. Twelve men's guns were taken from them and six were loaded with balls and six were loaded with blanks. The twelve stood up and a piece of paper was pinned over the hearts of the spies. At a signal the twelve men fired and each does not know whether or not he killed the traitors."

In the letter printed yesterday it was stated that suspects were being watched, and if they were found poisoning wells death would be the punishment. The above letter indicates that the spies were located and met their just deserts.

POLICE NEWS.

There was only one prisoner in police court today and he was ordered out of the city.

Fred Helwig reports that fifty feet of three quarter-inch rope was stolen from his barn a few nights ago.

Officer Hobbs was called three times yesterday afternoon to quell family disturbances in the east end of the city.

Valuable specifications of some large building were found on the street and left at the police station where they can be claimed by the owner.

PLAN IS COMPLETE.

Admiral Cervera's Fleet is to be Crushed.

The Armada Is Located and Will be Attacked.

Great Naval Battle to Take Place This Week.

American Squadrons Now Closing In on the Spanish War Fleet—The Solace Is Under Emergency Orders.

KEY WEST, Fla., May 24.—Every preparation has been made by the United States naval authorities for destroying the Spanish fleet, which is known to be off the island of Cuba. All signs point to a decisive battle some day this week. The hospital ship Solace and her surgeons were ordered long ago to be ready for service at a moment's notice but no fresh orders have been issued.

KEY WEST DESERTED BY THE WARSHIPS.

NEW YORK, May 24.—A special from Key West to the Commercial Advertiser says:

Key West has not been so deserted by warships for weeks as it is this morning. It will never be complained that vessels were kept inactive when there was a prospect of a fight. Nothing is heard of an immediate occupation of Cuba. Everything awaits Sampson's and Schley's movements.

REPORTS FROM HAYTI SAY CABLES NOT CUT.

(Copyright 1898, by the Associated Press.)

CAPE HAYTIEN, Hayti, May 24.—Inquiries made here at the cable station in regard to the reported cutting of the cables off Santiago de Cuba and Guantanamo by a United States cruiser show the cables have not been cut.

The cable from this place to Guantanamo and Santiago de Cuba is in working order.

RATIONS ARRIVE.

Many Carloads of Supplies Reach Chickamauga.

The Soldiers Are Being Rapidly Organized and Get Plenty of Drill Work—No Danger of Fever in Cuba.

CHATTANOOGA, Tenn., May 21.—The work of unloading and storing forty-nine cars of provisions which arrived yesterday and last night was completed today.

Up to today the quartermaster's department had received $295,000 worth of provisions for the volunteers. The value of the clothing and equipments already received amounts to almost as much.

The quartermaster's department is doing remarkably well in its work of caring for the 35,000 men now in camp. The arrivals of this morning were the Third regiment Tennessee infantry and the First regiment Vermont infantry.

The Third Tennessee, 1,000, officers and men, under Col. J. P. Fyfe, arrived at 4 o'clock this morning, three trains from Nashville. Breakfast was served the men in the city and they were taken to the park at 9 o'clock.

The majority of the men in this regiment are from Chattanooga and thousands of people visited them during their stay in this city.

The First regiment, Vermont volunteer infantry, arrived this morning on four trains over the Southern railway. The regiment is composed of 980 officers and men, under Col. O. O. Clark. It was transferred to the park at noon.

The railroad men are now getting their first rest since the mobilization began. Comparatively few troops are arriving.

In the park today hard drilling is going on in every camp.

The work of training the troops thoroughly is being steadily and vigorously prosecuted.

NO DANGER IN CUBA TO THE VOLUNTEERS.

DES MOINES, Ia., May 24.—United States consul at Matanzas, A. G. Brice, of Bedford, Ia., was at Camp McKinley today. In an interview he said:

"I wish to assure the volunteers in the different states that there is little danger of the United States soldiers falling victims to disease in Cuba. I speak from experience in the province of Matanzas, where there has been great suffering among reconcentrados.

"The physical ills of the Cubans and Spaniards in the armies result from deplorable sanitary conditions. Field operations are perfectly practicable during the rainy season, if there is a proper observance of the ordinary rules of health. The volunteer need not hesitate to enlist, for with reasonable precautions there is little danger."

TO JOIN SAMPSON.

Two Hundred of the Illinois Naval Reserves Leave Chicago.

CHICAGO, May 24.—Two hundred Illinois naval reserves left here today for service in Admiral Sampson's fleet. They go to Mobile, thence to Key West over the Plant system. All along the line of march and at the depot the reserves were wildly cheered. About 250 students of the University of Chicago marched as an escort of honor of the commanding officer, Lieut. S. W. Stratton, who was professor in the department of physics at the university.

A MOMENT TO REST.

The Crowds Gave President a Little Leisure Today.

Nothing Given Out Before the Cabinet Meeting Concerning the War—Senator Burrows' Opinion.

WASHINGTON, May 24.—President McKinley had an opportunity to devote more time to reading the newspapers today, for there were few early callers.

Mrs. McKinley took advantage of a clear summer's morning for a drive about the city, accompanied as usual by several of her friends.

Up to 10 o'clock the congressional contingent intent on personal interviews included only Senator Burrows, of Michigan, and Representatives Butler, of Pennsylvania; Grout, of Vermont, and Crickering, of New York.

Soon afterwards Senator Platt, of New York, had a conference with the president, and between that time and the assemblage of the cabinet at the regular Tuesday session a number of other senators and representatives were in consultation, almost all of them in relation to war appointments.

Representative Tawney, of Minnesota, presented Capt. Hatch, of Minneapolis, to the president. Mr. Tawney, in discussing the Hawaiian annexation issue, gave his personal opinion that the report of the foreign affairs committee on the Newlands resolution would be taken up in the house the latter part of this week and that liberal time for debate would be allowed.

He had made a personal canvass of the republican side of the house and has found 189 republicans ready to vote for annexation. About two-thirds of them, he said, favor immediate consideration.

Contrary to a published report, Mr. Tawney has not represented to Speaker Reed the sentiment of the house in favor of annexation but he believes a prompt consideration of the resolution will be allowed on the floor.

Senator Burrows, of Michigan, was with the president for some time, but on leaving disclaimed any knowledge of any information throwing light on the war situation. Senator Burrows, however, made no concealment of his personal conviction that there should be 100,000 men promptly sent to Manila to hold the Philippines.

Secretary Wilson was the first of the cabinet to arrive at the white house, Secretary Gage and Postmaster General Emory Smith following on the stroke of 11. Secretary Long, who had just returned from his home in Massachusetts, entered the cabinet room a little late with Secretary of State Day.

Secretary Long, before joining the president and the cabinet, said that the press dispatch from London about the reported destruction of Admiral Cervera's fleet was all the news he had on the subject and that there had been nothing official to confirm it.

The report attracted considerable attention among senators and representatives, who have been eager for news of a conflict between the two navies. Several of them called the attention of the president to it, but succeeded in getting no news concerning it.

THE WORD CONTEST.

The Long Work of Examination Is Completed.

The Winners of the Prizes are Known and Announcement Will be Made Next Saturday.

After several months of patient and laborious work on the part of the judges and impatient, and not in all cases good natured waiting, on the part of the contestants, the winners of the prizes of THE SENTINEL's word contest are known. The work of examination, which has been in progress since December 23 last, has been completed and only a few slight but essential details remain to be finished. The winners of the prizes will be announced in next Saturday's issue of THE SENTINEL and the money will be paid to the successful contestants at the office or in any manner designated by them. Further particulars will be given at that time.

Deck Bound Over

Bernhard Deck, the alleged young forger, had a preliminary hearing before United States Commissioner Logan last evening. Jesse M. Lafollette, of Portland, assistant district attorney, prosecuted the case. The lad was bound over to the United States court and will be taken to Indianapolis to await trial. His bond was fixed at $300.

Judge Hammond and Attorney Stewart, of Lafayette, are in the city today making an examination of witnesses in the case of Biddle vs. the Wabash railway. The examination is being made before Court Reporter Logan.

Mrs. Mulqueen will entertain Fort Wayne hive, No. 6, L. O. T. M. and friends at tea Thursday afternoon, from 2 to 4, in the hall above the Hunt House.

ARMADA IS CRUSHED

Such Rumors are Persistent Today In London.

Sampson and Schley Said to Have Formed a Juncture.

Encountered Cervera Near the Windward Passage.

No Official Report of a Fight Received in Washington—Spanish Fleet Said to be Yet at Santiago.

LONDON, May 24.—Persistent rumors were in circulation here early today to the effect that a great naval battle had been fought in the vicinity of the Windward Passage between the eastern end of Cuba and the westward part of Hayti, in which both the American squadrons closed in on the Spanish Cape Verde squadron, commanded by Admiral Cervera, and completely destroyed the Spanish ships.

A dispatch from Kingston, Jamaica, to Reuter's Telegram company, yesterday evening, said nothing was known there of the reported battle in the Windward Passage, adding that no American or Spanish warships have visited Jamaican ports since the beginning of the war.

The London newspapers take it for granted that the ships reported yesterday by Lloyd's agent at Para, Brazil, as having arrived there at 9 o'clock on Monday from Rio Janeiro, are the Oregon, the Marietta and the Nictheroy.

KEY WEST, May 24.—The movements of the United States fleet, which are known here, make it absolutely certain no battle has yet occurred, but an engagement is expected to take place this week. The Spanish fleet has been definitely located.

WASHINGTON, D. C., May 24.—It is stated at the navy department that no news has been received here of an engagement between the fleets and that no news has been received of the arrival of the Oregon at Key West.

(Copyrighted, 1898, by the Associated Press.)

PORT AU PRINCE, Hayti, May 24.—According to current rumor here the Spanish Cape Verde squadron, commanded by Admiral Cervera, which arrived recently at Santiago de Cuba, subsequently sailed from that port, destination unknown.

MADRID, May 24.—Noon.—It is officially announced that the squadron of Admiral Cervera was still at Santiago de Cuba yesterday.

NEW YORK, May 24.—A Key West correspondent telegraphs to the Evening World that he has information from an unimpeachable authority that the Spanish fleet is still at Santiago.

WASHINGTON, May 24.—The navy department, at 3:15 this afternoon, posted the following bulletin:

The department has no reason to believe that a battle has occurred in the Windward Passage. The auxiliary cruiser St. Louis has cut the cable at Santiago de Cuba and San Juan, Porto Rico.

SPAIN CHANGES HER WAR PLANS.

WASHINGTON, May 24.—Notwithstanding the persistent rumors in circulation to the effect that a great naval engagement has been fought in the Windward passage resulting in the destruction of the Spanish fleet, it can be stated positively that the navy department has no information that can in the slightest confirm these rumors. Unless the improbable happens, there is no immediate prospect of a naval engagement of any magnitude in the opinion of the navy officials.

The unanimity with which those best informed express this view almost warrants the conclusion that it is based upon a knowledge that the hostile fleets are again far apart. Indeed there is no certainty that Admiral Cervera is not already bound homeward, providing he has succeeded in securing coal, for he could not make the run back to the Canaries with less than about 2,600 or 3,000 tons.

There are signs in Madrid that have been noted here, seemingly to warrant the supposition that there has been a complete change in the Spanish plan of conducting the war. Indications are believed to point to a relaxation, if not a total abandonment of the efforts to conduct the campaign in Cuba and the West Indian waters. The natural conclusion, if this premise is well founded, would be that the Spaniards were going to concentrate their entire energies to the defense of the Philippines with the view of retaining them in the event peace is forced upon them by virtue of the principle of international law which limits a victorious nation in indemnifying herself from the vanquished to the territory she actually occupies when peace is declared.

So the retreat of the Spanish squadron from the West Indies would be significant, first, in the danger it would place Dewey immediately, and second, in the hint it would convey that the Spanish mind for the first time contemplates the possibilities of peace.

The war board, lately known as the strategy board, had a short session this morning. There appears to be a great misconception on the part of the public and the newspapers as to the nature of this board, its composition, functions and manner of work. According to the popular mind, this board sits in the navy department and with autocratic orders directs the movements of fleets and the execution of plans of campaign down to the very smallest details.

This conception has lead to a good deal of comment, some humorous and some serious, at the expense of the board and the idea had even spread to Europe where so conservative a paper as the London Times has delivered itself of this criticism:

"It would be wise in the future to leave the direction of operations to naval commanders. Councils have never proved capable directors of war. Their proper function is to obtain information and to forward it to the admirals, who must have, as Nelson claimed, the right to act when the fitting opportunity arrived."

Now Secretary Long is a member of the war board; at least he is frequently with it during its sessions and he says that the views of the Times as to the proper functions of a war council express exactly the functions conferred upon and exercised by the naval war board.

MUNICIPAL AFFAIRS.

A Big Remonstrance Filed With the City Clerk.

Opposition to Annexation—Board of Public Works Decides on Certain Improvements.

The meeting of the city council tonight will be a most important one. The big matter for discussion will be the proposed annexation of property south and west of the city, mentioned in THE SENTINEL several weeks ago. This morning a remonstrance signed by twenty-two of twenty-five residents west of Broadway in the addition proposed to be annexed was filed with City Clerk Menning. A remonstrance signed by two-thirds of the property owners defeats annexation, but inasmuch as the signers to the above remonstrance are owners of only a small per cent. of the entire property proposed to be annexed it is believed the council will pass the ordinance for annexation.

BOARD OF WORKS.

The board of works held a regular meeting yesterday and transacted routine business.

A petition was presented, asking that Creighton avenue be paved with brick from Holton avenue to Walton avenue, and it was favorably acted on, the board instructing the engineer to prepare the plans immediately. The engineer was also instructed to prepare plans for paving with brick the five-foot alley between Clinton and Barr streets, from Main to Berry, and for constructing sidewalks on the north side of Leith street, from Calhoun street to the first alley east.

A petition for sidewalks on Fairfield avenue, from Organ avenue to Nuttman avenue, was received and placed on file. A petition for a sewer in the alley between lots 1 and 2, Wagner's sub-addition, was also filed. Action will be taken at the next meeting, as the board is desirous of first ascertaining whether owners of adjacent property desire an extension of the sewer beyond the points designated in the petition.

The board closed the contracts with the Alcatraz Construction company, in the matter of paving Calhoun street and a number of south side thoroughfares. The contracts were signed and the board also approved the bonds submitted by the company. The bonds are signed by the American Bonding and Trust company, of Baltimore, and aggregate $48,000. These bonds indemnify the city against loss and also guarantee the durability of the pavements.

Spain's boasted valor is now known to be her ability to avoid a fight.

The story that Sampson had met and defeated the Spanish fleet was merely anticipating what is bound to happen sooner or later.

An Anglo-American alliance doubtless is desirable "for all concerned," but let us wait until we see which party is most in need of it.

If the Spanish admiral came to this side merely to burn coal he could have had less trouble and perhaps more fun by putting the torch to the Spanish fuel heaps at San Juan.

The sensational report printed by Sunday morning newspapers that twelve Spanish warships had been engaged and sunk was in part true. But true only so far as it might refer to Dewey's doings at Manila.

The second trial of M. Emile Zola upon a charge of having libeled the military tribunal which tried Count Esterhazy has begun in Paris, and the Parisians may now divide their time between spitting on the novelist and spitting at America.

One thing daily becomes more evident. Spain is not going to quit till she is licked. And as licking means the destruction of Cervera's fleet it will be some time before Spain will be up to the finish post.

Bunting should be exempted from the operation of the law of supply and demand. The national colors should never rise in price with increased demand for display of the flag. "Old Glory" should be within the reach of the poorest man's pocketbook. It is an evidence of patriotism when the stars and stripes go up, but not when they go up 50 per cent. or thereabouts.

It has been four days and some hours since Boston folk were terrified by reports from Maine fishermen that a "low rakish craft painted black and having two stacks" was seen steaming regardless of orders in the direction of Beantown. Boston common, the Bunker Hill monument and the sacred codfish are still intact and undefiled, but there is no knowing how long this may be. People of other endangered coast towns may have fears, but they know nothing of the distraction that Boston folk know. They have only lives to lose. In Boston there are things infinitely more precious.

So far the war has been all one sided. The Spanish loss at Manila and, in the various engagements along the Cuban coast at Matanzas, Cardenas, Cienfuegos, Cabanas and at San Juan, Porto Rico, aggregate probably fifteen hundred killed and twice that number injured. The American loss in actual hostilities numbers, if the reports are correct, only eight killed and not more than a score wounded, and those figures include those who suffered in Dewey's tremendous victory at Manila. If that ratio is maintained Spain's forces will be wiped out and the United States will suffer no great loss of men.

That the volunteer army is not properly seasoned for an invasion of Cuba is clearly demonstrated by reports from the camps in the south. At Falls Church, Va., and at Tampa, Fla., they are having sultry summer weather, with the mercury ranging in the vicinity of 90 in the shade. Northern boys embarking from the trains are compelled to compelled to march a few miles to reach the camp grounds and with their heavy soldier clothing and accoutrements a tramp of a mile or two is as much as most of them can endure under the extreme heat. The terrific climate of Cuba would incapacitate the most of them from active service. The drill work in the southern camps will season them for active duty in Cuba and they will in a measure become acclimated to semi-tropical conditions. The boys at Chickamauga are more fortunately situated at present. Camp Thomas lies on high ground among the hills and the soldiers there are not suffering the discomfiture of unwonted heat. It will be some time before the volunteers are fit for Cuban service.

Mr. George F. Felts has assented to the use of his name as a candidate for membership on the city school board to succeed Mr S. M. Foster, whose term expires next month. It is due to Mr. Felts to say that in deciding to become a candidate he has only yielded to more than ordinary pressure from an unusual number of democratic friends. Of his fitness and capacity for the position nothing need be said. His qualifications will be readily conceded. Mr. Felts says he is in favor of applying the interest of the school fund to educational uses, with special reference to the public library, a precedent established by Mr. Foster. He also announces that he favors a restoration to the city council of the authority to fix the city school levy.

Although nothing definite has come from official sources in Washington concerning the alleged intention of the president to call for more volunteer soldiers, the concensus of opinion of those well informed is that another call will soon be made. The job of driving the Spaniards from Cuba begins to loom up as a vastly larger undertaking than it was expected to be, and the necessity of holding the Philippines has injected into the military problem a new complication that was not counted on when the president's first call for troops was made. It is held by many expert military men that complete conquest of the Philippines will require from thirty thousand to fifty thousand soldiers. Some estimates go higher than that. In Cuba it was thought an army of invasion of one hundred thousand men would be sufficient. But when that number was accepted as approximately about what would be needed, the revolutionary armies were believed to be many thousands stronger than they have since been learned to be. If recent official information procured by the war department is reliable the Cubans can now be relied upon to furnish a very few thousand fighting men. It now looks as though not less than 200,000 soldiers will be necessary to invade Cuba and drive Spain's flag from the island. After the campaign in Cuba has begun, it may be found that even that number will not furnish a strong enough force to invest all the fortified places and hold them after they are taken. The capture of Porto Rico is also probably a part of the general plan of war against Spain, and a large force will be necessary in that island if it is to be taken and held. It is highly probable, therefore, that as soon as something like disciplined organization has been effected with the volunteers already in camp, another call will be made for soldiers. There appears to be work ahead for not less than 100,000 more troops than are now under arms.

OTHERS SUFFER FROM WAR

West Indian Islands Distressed by Rise in Prices of Foodstuffs.

Washington, May 24. — Third parties have begun to suffer from the war, according to reports received from United States Consul Aymé, at Guadaloupe, and it may be that other West Indian islands are to share in the burdens imposed upon Guadaloupe by the existence of hostilities.

He reports that there is a scarcity of flour and other provisions and also of lumber, owing to the cessation of arrivals of vessels from the United States.

Probably those do not care to venture the chance of capture of their cargoes by Spanish warships. The last ship arrived March 20th and when she cleared there were but 2,500 barrels of flour on the island. Brokers bought up all of this, as well as of other provisions, at an advance of from 8 to 10 per cent. and have raised prices. There is practically a corner on United States provisions, as but a small amount is produced on Guadaloupe, and the prices of those also have advanced. The consul fears serious results if prices rise much higher so that suffering follows.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continued constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured—Logan M. This Is What Fort Wayne Presented to Bob Gilkes.

Al Whitridge Pitched His First Game and Was Given Gilt-Edged Support—Notes.

Hundreds of people stayed away from yesterday's game because of the poor exhibition put up by the Fort Waynes the day before. There were a couple of hundred enthusiasts who would not be downed, and their attendance was repaid by seeing Fort Wayne play one of those games which were so common the latter part of last season. Al Whitridge, late of Springfield, pitched his first game for the Hoosiers and he had lots of fun with Bob Gilks' erstwhile terrific batters. Campbell caught in first-class style and jollied the new pitcher along, while almost every man on the team had a word of encouragement for him. Cooke got on the coaching lines once or twice, and that voice was enough to brace up players as dead as the Youngstowns must be by this time.

Roger Bresnahan, the young Toledan who twirled for Washington last season along with "Cy" Swaim, essayed to pitch for the Toledoes. Probably yesterday's effort was not the best Mr. Bresnahan had up his sleeve, but if it is he should get a hustle on himself and secure a job in the Robison Park league before he is completely exploded. He's a nice young man, too, but not very pretty. There are some other teams in the Inter-State he may be able to beat, but when the Fort Waynes are at themselves Mr. Bresnahan would best be kept in the stable.

And it was joyful to the handfull of cranks to see the Fort Waynes field. Peck Sharp played around second base not unlike he did a quarter of a century ago when he was with the Waterloo, Iowa, team. Charley Babb was at his best, too, and ate up two or three base hits with more relish than he devours a Crescent hotel lunch. Kihm, Campbell, Cooke and Babb batted like they did last season, and this is why Fort Wayne won the game. Here's how the runs were made:

Sharp made a single in the first after Hickey was out, but O'Meara and Campbell were out.

Kihm went to first on balls in the second and Cooke sacrificed him to second. Babb got a base on balls and then Belden hit to Bresnahan, who tried to throw Babb out at second, but made a poor throw and the bases were full. Kihm scored a minute later while Babb was being put out at third on Whitridge's hit to McDonough.

In the third, after two were out, Campbell made a single and scored on Kihm's three-bagger to right field.

Babb, the first man up in the fourth, was hit by a pitched ball and was sacrificed to second by Belden. He scored on Hickey's single.

Two more runs was scored in the seventh on singles by Campbell, Cooke and Babb, a stolen base and wild pitch.

There was a pretty batting rally in the ninth. Campbell led off with a three bagger, Kihm followed with a hit toward Smith, who fell down just as he was about to get it on the bound and Kihm went to third. Cooke's three-bagger sent him home and a moment later Babb brought Cooke in with a single. A pretty double play ended the inning.

And Toledo didn't get a run.

WILL TRY SUNDAY BALL AGAIN.

Springfield, Ohio, May 24.—The Springfield Inter-State league club has decided to try Sunday ball again next Sunday. New Castle is to be the opposing team. The Law and Order league last year succeeded in suppressing it, at great expense, however. The directors believe they will not interfere this season.

NEW CASTLE, 7; DAYTON, 6.

Dayton, Ohio, May 24.—New Castle won in the tenth. A bad decision by the umpire gave them four in the fifth, otherwise they would have been beaten. The score:

New Castle..0 0 0 0 4 1 0 0 1 1—7

Dayton.....2 0 1 1 0 2 0 0 0 0—6

Base Hits—Dayton, 13; New Castle, 11. Errors—Dayton, 3; New Castle, 6. Batteries—Rosebrough and Donahue; Smith and Barclay. Time—2:15. Umpire—Colgan.

YOUNGSTOWN, 4; SPRINGFIELD, 3.

Springfield, Ohio, May 24.—A three-bagger by Steen and a wild pitch by Cogswell gave Youngstown a fast and closely contested game. The score:

Youngstown..2 0 1 0 0 0 0 1 *—4

Springfield...3 0 0 0 0 0 0 0 0—3

Hits—Springfield, 4; Youngstown, 7. Errors—Springfield, 2; Youngstown, 2. Batteries—Springfield, Cogswell and Graffius; Youngstown, Knepper and Patterson. Umpire—Latly.

GRAND RAPIDS, 4; MANSFIELD, 3

Grand Rapids, Mich., May 24.—Sharp fielding on both sides kept the score down, and not until the twelfth inning did Grand Rapids get the winning run. The score:

G. R.....1 0 0 0 0 0 2 0 0 0 0 1—4

Mansf'd.0 1 0 0 0 0 0 2 0 0 0 0—3

Hits—Grand Rapids, 15; Mansfield, 10. Errors—Grand Rapids, 3; Mansfield, 2. Batteries—Altrock and Cote; Beam and Belt.

NOTES.

Herr and Keenan are the opposing pitchers today.

Alloway and Ewing will do the twirling in tomorrow's game.

Babb and Sharp were strictly in it yesterday. No better infielding was ever seen on the grounds. Hickey made one nice stop.

If Whitridge is shoulder bound, as many people intimate, a few more shoulder bound pitchers to do such work as he did yesterday is what Fort Wayne wants.

Belden has the "ear-marks" of a great outfielder, and when he regains his health completely there will be none in the Inter-State to play the outer garden as he does.

Logansport Reporter: "The features of the game were the pitching of Hutton and the Fort Wayne chap and the fielding of Collars, who played here with the Brewery team in 1890."

Fort Wayne doesn't need new ball players. Yesterday's game demonstrated that fact. If the present members of the team play the game they are capable of more games will be won than lost.

There are not many better ball players in the Inter-State league than Captain Bob Gilks, of the Toledoes, and certainly there is no better outfielder. Bob is a gentleman all the time and has friends in every city he visits.

The way Kihm, Cooke, Campbell and Babb batted the ball reminded the cranks of the many games last season when, with defeat staring the Hoosiers in the face, a batting rally would send runs enough across the plate to win.

Logansport Pharos: "The Shamrock team was made up of men of all sizes and no two of their uniforms are alike, but they know how to play base ball, just the same. They were always in the game and never lost their heads."

Manager Strobel says that the Inter-State league is faster this season than ever. Last year when his team got in front it was never headed, while this season he has to fight for every victory won and drops a big percentage of games at that.

Manager O'Meara has telegraphed an infielder named Spencer to come to Fort Wayne. Spencer played with the Houston, Tex., team until the Southern league gave up. Spencer is recommended as a first-class player, and before the commencement of the season Nashville and Houston had a contest for his services. The rumor that Cooke, Fitch and Sharp had been released is untrue, though it is possible that one of the trio will be released. An outfielder has written for a trial.

Manager O'Meara this afternoon released "Goat" Fitch. The little short stop was one of the best in the position that played in the Inter-State league. He covered plenty of ground and was very fast at the front end of a double play. He was not loath to take desperate chances, but as he wasn't batting very hard and as the team was losing, somebody had to go, and "Goat" drew the prize. A new outfielder named Burt arrived in the city today, and is recommended by Bob Gilks, who ought to give him a trial if he is so good.

I. G. Stafford has sold his printing office to Oliver Hebert, who will conduct the business as heretofore, at 117 Barr street, corner Washington.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at Dreier & Bro.'s drug store. Large bottles 50 cents and $1.00.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters;' and, to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bot. at Dreier & Bros. drug store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. SYSTEM IS PERFECT.

Atlantic Coast Signal Service Now Complete.

Signal Stations From Maine to Texas on Constant Watch for Hostile Fleets—Details of the System.

Washington, May 24.—After several weeks of work along the entire stretch of the Atlantic and gulf coasts, the navy department has completed the most comprehensive and efficient system for observing the approach of a hostile fleet that has ever been put into operation.

A new bureau has been created for this purpose known as the coast signal service, in charge of Captain Bartlett, who attends to this as well as the work of the naval board of information.

The system has the services of 2,300 men stretched along the coast from Bar Harbor, Me., to Galveston, Texas. These are divided into thirty-four central stations about sixty to 100 miles apart along the coast. The stations are in turn connected directly by telegraph with the coast signal office of the navy department in constant telegraphic touch with the entire stretch of Atlantic and gulf coasts.

Secretary Long projected this plan a month ago, and $75,000 was set aside to establish the points of observation along the coast. After selecting the thirty-four central points from Maine to Texas, rush orders were given to build observation towers and houses for the observers. The naval militia was drawn on to man the different observation towers, and five militiamen with the rank of naval quartermasters, are now on duty at each of these stations. The towers are completed, and also the small houses for their living purposes.

There are 233 of these militiamen now in service. The next step was to have the light house service made an adjunct to the coast observation. This was done through the co-operation of the treasury department, and the lighthouse force of 1,200 men scattered from Maine to Texas are assisting the work of observation.

The life saving service was brought into similar co-operation, so that now 1,060 life savers are added to the observation force.

The thirty-four central stations with the numerous lighthouses and life saving stations make a complete chain of observation points, all connected by telegraph or telephone with one another and with the navy department. By arrangement with the telegraph companies the reports from these observers take precedence over the private telegraphic business, so that the navy department is enabled to get immediate telegraphic notice of the approach of any hostile fleet or suspicious ship.

The work of observation has been thoroughly systematized. Watches are kept on the tower throughout the day and night. The life saving crews in particular are assigned to night duty and they patrol the beach throughout the night on the outlook for approaching ships.

All the central points and the observers have been supplied with telescopes and full appliances for marine observation. They are also supplied with torches, rockets and other paraphernalia for signaling. The results already secured have shown the efficiency of the plans adopted. Naval vessels passing along the coast are able to signal day or night by torches and otherwise with the naval observers along the beach and these signals are immediately telegraphed the navy department here. Thus the naval vessels can be kept in constant communication with the department without the necessity of coming into port.

Captain Bartlett sleeps throughout the night alongside the telegraph instrument, ready to convoy to his superiors word of the approach of any hostile ship.

The first thing each morning reports are received from every point from Bar Harbor to Galveston stating briefly that everything is quiet or otherwise, as the case may be. Thus far the day reports have been uniformly reassuring, but the night reports have been at times alarming.

The observers, being alert and new to their work, report every suspicious light seen off shore and frequently attach serious significance to it.

Since Captain Bartlett has answered some of the scare reports with the laconic message, "Sea serpent," the observers have been more cautious and the reports show evidences of careful observation.

With the system in its present perfected condition the navy department feels assured that it knows exactly the condition of affairs along the entire stretch of Atlantic and gulf coast.

The system is simply a precautionary one, as the department has had no reason to believe that Spanish ships were menacing points along the coast.

FORMAL REPORT MADE.

State Department Responds Concerning Hungarians Killed at Hazelton.

Washington, May 24.—The state department has made formal response to the Austrian government as to the Hungarians killed at Hazelton, Pa., in the riots of last fall.

The governor of Pennsylvania sent in a long report made up mostly of the record of the celebrated trial, and this was reviewed by the attorney general and supplemented by a strong argument to maintain the position taken by our government, namely, that it was not responsible, under the circumstances, for the killing.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

THE B'NAI BRITH.

The Three Days' Session Closed This Afternoon.

The Delegates Yesterday Enjoyed an Excursion About the City and Last Night Attended a Banquet.

The delegates to the B'nai Brith convention have completed the labors of their three days' convention and are now en route to their homes.

Yesterday afternoon the local committee showed the visitors about Fort Wayne and tendered them a ride to Robison park, Fort Wayne's beautiful summer resort.

Last night they were invited by Emek Beracha lodge to sit down to a banquet at Standard hall, which had been tastily decorated for the occasion. Landlord Statesman, of the Randall, was the caterer, and he served up a dinner that was fit for kings, the spread being one of the finest ever served in Fort Wayne. Julius Nathan acted as toastmaster, Rabbi Cohn offered prayer and M. Frank delivered an address of welcome. President F. S. Spigel responded to the toast, "It Was, It Is and It Will Be." Dr. Wollenstein told of the Cleveland orphans' asylum and Jacob Fruth responded to the tost, "Culture, Its Worth and Influence." "Jewish American Institutions" was responded to by M. A. Marks, and Victor Abraham talked of "Our Country." Joseph Freiburger responded to the toast of "The Ladies." Reineke's orchestra furnished music for the banquet and the ball which followed.

TODAY'S SESSION.

The important business of today's session was the election, which did not occur until just before adjournment early this afternoon. The morning session was devoted to the discussion of matters of especial interest to the membership of the organization. The following officers were chosen:

President—M. Friedman, Denver, Colo.

First Vice President—Samuel Bowman, St. Louis, Mo.

Second Vice President—Marcus Sulzer, Madison, Ind.

Secretary—Victor Abraham, Cincinnati.

Treasurer—M. Bauer, Cincinnati.

A sergeant-at-arms and general committee were also elected and then final adjournment followed at about 2 o'clock.

Mr. Friedman, the new president of the company, said to The Sentinel that the delegates had enjoyed the hospitality of the people of Fort Wayne and the convention had been an instructive and pleasant one to all who attended.

HONORED AGAIN.

Mrs. Chester Durnell Re-elected to Office.

Chosen President of the Insurance Branch of the L. A. of the B. of L. E.—Affairs of the Shop and Rail.

Mrs. Chester Durnell, of this city, has again been the recipient of one of the highest honors within the gift of the Ladies' Auxiliary of the Brotherhood of Locomotive Engineers, viz: president of the insurance branch of the order. Mrs. Mary C. Orr was also re-elected to the office of secretary-treasurer. There were other candidates for these offices, but the ladies named carried the election by overwhelming majorities, an evidence of their great popularity and efficiency.

Mrs. Durnell and Mrs. Orr have held the positions of president and secretary, respectively, since March, 1890, when they were appointed to their positions by Mrs. W. A. Murdock, the grand president, under powers conferred on her by the second convention of the auxiliary, held in Chicago in September, 1889. At the next regular convention of the auxiliary, held in Allegheny, October 15, 1890, the grand president's selections were indorsed by the convention, which elected them for the next regular term of two years. Since that time Mrs. Durnell and Mrs. Orr have been re-elected at each session in which their terms expired, and their re-election at the present session was a handsome recognition of the ability and faithfulness with which they have managed the affairs of the insurance department.

The Indianapolis Journal says the new police department of the Pennsylvania at Indianapolis is doing good work under the direction of Capt. F. C. Herr.

J. E. Long, Pittsburg engineer, went to Rome City this morning to occupy his cottage for a week. He was accompanied by his daughter, Mrs. Charles Jones.

Al. Mercer has resigned a position at the Bass works and will resume his old place in the Pittsburg shops which he vacated four years ago. He is a blacksmith.

Between January 1, 1871, and January 1, 1897, there were 811 railway accidents in this country due to broken wheels and mostly wheels under overloaded cars.

Samuel S. Metcalfe, of the Pennsylvania train service, underwent an operation for an affection of his ear, yesterday. Dr. A. E. Bulson performed the operation at Hope hospital.

Robert Pitcairn, superintendent and general agent of the Pennsylvania road at Pittsburg, is being urged to accept the nomination for mayor of Pittsburg by the business men of that city.

Sunday night Fireman R. A. Seymour, of the Nickel Plate, had two toes crushed by a piece of coal dropping upon them while he was out on his run. The accident happened at Fostoria.

H. Renburger, the Nickel Plate brakeman, is suffering from a big abscess on his cheek. The sore has been so painful that he has been unable to work but little for the past three weeks.

The Ogdensburg and Lake Champlain was last week taken out of the hands of a receiver, and on Saturday Theodore Butterfield was appointed general manager. The road will be transferred to the reorganized company on June 1.

The Pennsylvania company, which has just established service between Pittsburg and Detroit, is having complete, wide vestibuled cars built for this service, which has already developed a good deal of business between the points named.

The directors of the Pittsburg and Lake Erie have elected W. H. Newman, president of the Lake Shore road, president of the Pittsburg and Lake Erie, and this week he will go over the road and examine its condition and the methods of doing business on that line.

Among the shipments from the electric works this morning were a 1,000-light incandescent dynamo to Ortonville, Minn., and a motor to the Cornell university, at Ithica, N. Y.

Fred Scheiferstein, of the Pittsburg shops, will soon be married to one of the south side young ladies. He is already engaged in fitting up a home for the bride on Buchanan street.

Theodore Bley, the veteran yardmaster at the east Pennsylvania yards, assisted by his neighbors and friends, erected a handsome pole at his residence last evening, from which a large flag now floats.

Waterworks Inspector Brown, of the Wabash, had a gang of men engaged in removing the water plug at the depot 200 feet west, in order that passenger engines can take water while the train is at the station, without cutting loose from the train.

On June 15 the Erie will put on the new passenger equipment building for it to run between Cleveland and Pittsburg. The trains will be models. There will then be three lines operating between Cleveland and Pittsburg, all running fast trains with the most modern equipment.

E. E. Burd, Nickel Plate brakeman, is the father of a fine baby boy and this explains his absence from duty on the road for several days. He was getting acquainted with the "young man." Mr. and Mrs. Burd live in Bellevue, but he is nearly as well acquainted here as in that city.

The new Class H-5 locomotive the Pennsylvania has just placed in service is hauling up the hill from Altoona to Gallitzin just double the number of cars any locomotive used on the hill heretofore has been able to haul. The engine is too large to pass through the tunnels of Gallitzin or Spruce creek.

Mrs. Carrie Gregg and her children arrived in the city yesterday and will soon be joined by Mr. Gregg, who will engage at his trade and make this city his home in the future. They have resided in Portland, Ind., for several years. Mrs. Gregg is the sister of B. Volz, the Pittsburg wheel roller.

John Anderson has succeeded Tine Kretsinger at the big axle lathe in the Pittsburg car shops and Abraham White will assume charge of the lathe formerly operated by Mr. Anderson. Mr. Kretsinger is now employed in the mechanical department of the electric light station at Kalamazoo, Mich.

Some of the Pennsylvania officials having in charge the department of insurance, passed through the city yesterday. They were A. M. Schroyer, superintendent of telegraph; H. Newburn, of Philadelphia, inspector of Pennsylvania railroad insurance, and J. G. Robinson, of Baltimore, first commissioner.

Born, to Mr. and Mrs. Ed. Jenney—a son. The father is night clerk at the Lake Shore freight office and is today being congratulated over the young man's arrival. News of the event has been telegraphed to "Uncle" Fred C. Jenney, sergeant of the Zollinger battery, at Chickamauga, who is a brother to Ed. Jenney.

Tomorrow morning, at 6 o'clock, Miss Julia Itoisary and Martin B. Dideon will be married at the Cathedral. They will leave over the Pennsylvania for Canton, Ohio, shortly after the ceremony, where they will be the guests of relatives a week. Upon their return here Mr. and Mrs. Dideon will immediately go to housekeeping in the east end, where they have already fitted up a house. Mr. Dideon is employed in the Pittsburg lumber yards.

There has just been erected in the Mount Clare shops of the Baltimore and Ohio at Baltimore a new high pressure steam boiler for the purpose of testing locomotive boilers under steam pressure. Heretofore a locomotive had to be hauled to the outside of the shop, fire built in the fire box and steam got up in order to make a test, this method consuming much valuable time. Under the new arrangement all this is done while the engine is standing in the shop, a system of steam pipes having been so arranged that the engines on any track in the erecting shop can be tested without being removed.

Machinist George Scheid, of the Pittsburg, is off duty on account of sickness.

The votes for a member of the advisory board of the Pennsylvania Voluntary Relief association are in and the result of the election will be announced in a few days. There were two candidates: A. M. Tower, the machinist, and P. E. Mills, the car builder.

A WAR RIPPLE.

Dr. Henry C. McCook Ordered to Join His Regiment.

Call Reaches Presbyterian Assembly—The Charnley Embezzlement Figures in Home Missions Report.

WINONA LAKE, Ind., May 21.—A war ripple reached the Presbyterian general assembly today in a telegram calling Dr. Henry C. McCook, of Philadelphia, to rejoin his regiment, the Eighth Pennsylvania, stationed at Morristown, Del.

Before leaving he was given an opportunity to present the work and claims of the Presbyterian Historical society.

Elder John E. Parsons, of New York, offered a resolution directing a cablegram to be sent to Queen Victoria congratulating her upon this, her birthday.

Only one negative vote was heard when the question was put. The regular order of the day was the report of the board of Home missions presented by Dr. John Dixon, of Trenton, N. J., chairman of the stated committee.

The report began with an extended review of the work in the whole field, saying in conclusion that "In spite of circumstances, the financial year has been a good one."

The year opened with a cash debt of $117,276 and closed with a debt of $167,8??, an increase of $20,562. Its size is accounted for by the change from quarterly to monthly payments of salaries to the missionaries in the field.

Contributions amounted to $698,940, a decrease of $93,164 from last year, when special efforts were made.

Operating expenses were cut down by $7,515 and administration cost $30,578. For missionary work $421,746 were given and for Sunday school work $277,193.

The total expenditures amounted to $722,965, of which $110,280 were for mission work and $225,866 for Sunday schools.

Under the board are 1,393 missionaries, 81,682 church members, 2,180 Sunday schools with 133,623 pupils. Of the 1,632 churches under the care of the board, ten became self-supporting during the year.

The new deficit on account of the operation of the Presbyterian building in New York, of which the board is half owner, amounts to date to $24,465, but this amount is covered by a special loan, so that it is no burden upon the work of the board. It is estimated that if the whole of the building were rented the board would receive a net income from it of $3,780, besides free rental for the administration of the board.

The board of aid for colleges and academies, in its annual report, said the board supposed, Tuesday, July 6, 1897, it held a large amount in cash and securities. The next day it learned that $15.12 constituted its entire assets, the treasurer, Charles M. Charnley having embezzled the remaining $61,239.06.

The case was placed in the hands of the surety company which was on Mr. Charnley's bond and they took him into custody but he escaped.

Every effort has been made to trace and arrest him but not a clue has yet been discovered.

An honored friend loaned $10,000 for immediate necessities, and members of the board and synods made prompt and generous contributions for subscription, and the board was able to close the year without a deficit and without using any of the ordinary income of the board for the purpose to replace nearly all the embezzled funds except a small remainder, for which it hold good pledges.

The year on the whole has been the most prosperous in the board's history.

The expenses have been reduced twenty per cent. The number of students was 2,733, a gain of sixteen. The receipts were $145,216, and the expenses $102,461.

The cash on hand amounts to $13,785.

Drs. Dixon and Charles L. Thompson, recently elected secretary of the board, addressed the assembly on the board's work.

The assembly greeted Dr. Thompson with prolonged applause and his maiden speech was punctuated by vociferous applause. During the session a telegram was received from the church at Clinton, N. J., announcing a gift of $20,000 toward the board's debt, and another gift of $5,000 from a commissioner was announced by Dr. Thompson. For next year the board desires $867,000 to pay the debt and prosecute its work.

A fraternal telegram from Cumberland Presbyterian church was read.

David Hirsch, a prominent delegate to the B'nai B'rith convention, celebrated his thirty-ninth birthday anniversary yesterday by inviting ten friends to a sumptuous dinner which was served at the Wayne hotel. A special menu was prepared and for the occasion Mr. Hirsh had printed a handsome menu card. While the party were seated at the table the lights were turned down and a waiter entered with a big cake in which were burning thirty-nine candles, one for each year of Mr. Hirsch's life. The host is one of Louisville, Ky.'s, most prominent business men and the select party of friends were lavish in their wishes that he should enjoy for many years to come the good things of this world.

Nelson Strum has returned from Oak Harbor, Ohio, where he attended the funeral of his uncle, Mr. S. Barnes, who for a number of years was a member of the firm of Slunch & Co., of Monroeville. Mr. Barnes was born in Monroeville in 1850. One son, Harlen, survives him.

The Wayne Tent band will next Monday evening give an entertainment and hop at Schroeder hall.

TO MRS. PINKHAM

From Mrs. Walter E. Budd, of Patchogue, New York.

Mrs. BUDD, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"DEAR MRS. PINKHAM:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now I feel so well and strong, have no more headaches, and no pain, in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."

Feeding the Fire.

The most powerful engine must stop if the fires are not fed. Man is the most wonderful piece of machinery in the world, yet no matter how strong and well made his bodily frame may be, if the fire of life within him is not constantly fed his limbs and muscles become powerless and useless.

The reason men become helpless and diseased is because the food they eat, which is the fuel of life, is not properly digested and appropriated by the stomach and nutritive organs. It is not completely transformed into the strength and working power which is to man what steam is to the engine.

That wonderful power-making "Golden Medical Discovery," invented by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., imbues the human digestive juices and blood making glands with capacity to extract abundant nourishment from the food. It builds up organic tissue, nerve fiber, hard muscular flesh and working force. It gives a man *steam*.

What it did for Mr P. S. Hughes, of Junction, Hunterdon Co., N. J., is given in his own words. He writes: "I received your kind letter, and in reply would say that mine was a bad case of kidney and liver trouble, and that six bottles of Dr. Pierce's Golden Medical Discovery and four bottles of little 'Pellets' effected a complete cure. It is well known that almost every engineer is troubled more or less with kidney trouble, especially on our fast express trains. I run one hundred and forty four miles on these trains every day in the week, and have had no return of the trouble since taking the remedies, nearly three years ago."

HOW TO MAIL LETTERS.

Postoffice Renews Instructions to Persons Writing to Soldiers.

WASHINGTON, May 24.—The postoffice department renews its request to all persons addressing mail to officers or privates, or other military camps throughout the country, to plainly write upon the letter or parcel the company, regiment and state. For example:

"John Doe, Co. D, 16th Illinois infantry, Falls Church, Va."

At Camp Alger, which receives its mail from Falls Church, Va., there are located a number of regiments bearing the same numerical designation, and it is necessary in addressing mail to a member of the regiment to have the state name attached.

GETS SIX MONTHS.

Wire Tapper Stone Sentenced to Jail in Chicago.

CHICAGO, May 24.—Oscar M. Stone began today serving a six months' sentence in jail for wire tapping. The prisoner is believed to have been the most successful wire tapper in the country. The sentence in this case was pronounced by Judge Grosscup, of the United States circuit court.

The particular offense was interfering with the wires of the Western Union Telegraph company a few miles outside of Chicago, just across the Indiana border.

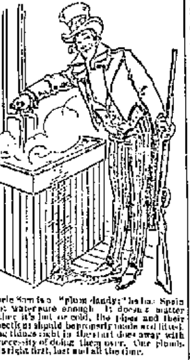
IN HOT WATER.



Uncle Sam is a "plum dandy;" he has Spain in hot water sure enough. It doesn't matter whether it's hot or cold, the pipes and their connections should be properly made and fitted. Doing things right in the start does away with the necessity of doing them over. Our plumbing is right first, last and all the time.
